Rain in The Mountains (Notes From the Himalayas)

" And the earth itself. It smells differently in different places. But its loveliest fragrance is known only when it receives a shower of rain. And then the scent of wet earth rises as though it were giving something beautiful back to the clouds—a blend of all the fragrant things that grow in it. " — Ruskin Bond, Rain In The Mountains

Rain in the Mountains Quotes by Ruskin Bond

The moist air reaches the coast and is forced to rise over mountains and hills. This forces the air to cool and condense, forming clouds. The air continues to be forced over the mountains and so it drops its moisture as relief rain. Once over the top of the mountain the air will usually drop down the other side, warming as it does so.

A Lady's Life in the Rocky Mountains - Wikipedia

Because mountains get so much rain, they're great sources of water, and gravity conveniently takes that water downhill in the form of rivers and streams. Often, mountain areas (like the Rocky Mountains) feed rivers (like the Colorado River) that provide the livelihood for heavily populated areas (like Arizona and Southern California).
