When Computers Went to Sea explores the history of the United States Navy's secret development of code-breaking computers and their adaptation to solve a critical fleet radar data handling problem in the Navy's first seaborne digital computer system - that went to sea in 1962. This is the only book written on the United States Navy's initial application of shipboard digital computers to naval warfare. Considered one of the most successful projects ever undertaken by the US Navy, the Naval Tactical Data System (NTDS) was the subject of numerous studies attempting to pinpoint the reason for the systems inordinate success in the face of seemingly impossible technical challenges and stiff resistance from some in the military. The system's success precipitated a digital revolution in naval warfare systems. Dave Boslaugh details the innovations developed by the NTDS project managers including: project management techniques, modular digital hardware for ship systems, top-down modular computer programming techniques, innovative computer program documentation, and other novel real-time computer system concepts. Automated military systems users and developers, real-time process control systems designers, automated system project managers, and digital technology history students will find this account of a United States military organization's initial foray into computerization interesting and thought provoking.

many ways lawyers analyze the law. The authors demystify legal analysis by examining the foundations and methodology of legal problem solving and by discussing the different levels of critical thinking necessary to develop effective legal arguments. The book emphasizes the importance of applying the law as opposed to relying excessively on formulaic methods of analysis. New to the second edition, the book examines rule-based reasoning and the implicit rule; deductive analysis and resolving statutory ambiguity; case-law reasoning and inductive analysis; the role of policy in legal argument; and the structure and variations of legal argument and CREAC. New examples and exercises are also included"--

Hugo Whittier—failed poet and former kept man—is a wily misanthrope with a taste for whiskey, women, and his own cooking. Afflicted with a rare disease that will be fatal unless he quits smoking, Hugo retreats to his once aristocratic family's dilapidated mansion, determined to smoke himself to death without forfeiting any of his pleasures. To his chagrin, the world that he has forsaken is not quite finished with him. First, his sanctimonious older brother moves in, closely followed by his estranged wife, their alleged daughter, and his gay uncle. Infuriated at the violation of his sanctum, Hugo devises hilariously perverse ploys to send the intruders packing. Yet

the unexpected consequences of his schemes keep forcing him to reconsider, however fleetingly, the more wholesome ingredients of love, and life itself. BONUS: This edition includes an excerpt from Kate Christensen's Blue Plate Special.

“A haunting novel that will make readers wonder.”-Orlando Sentinel  
Nemo's mother and father left him behind to enter "the Bin"—joining twelve billion uploaded personalities who live in crime-free, disease-free and deathless virtual societies. Nemo has come of age on a dangerous, near-deserted planet populated by a handful of stragglers: religious fundamentalists and rebels, the creeps and the crazies. Now he is twenty-one. And on a rare, reluctant visit to the parents who abandoned flesh and son for cyber-utopia, Nemo has met the perfect woman: a new Bin arrival named Justine, a beautiful pop singer who dreams other people's dreams in the virtual night. Now an inconvenient attraction is leading two lovers into a perilous mire of irreversible choice. For Justine has no body to return to. And Nemo the renegade has sworn never to sacrifice his own; to live, age, and die instead in a bleak earthly hell. Because, as an outsider, he may enter the Bin for short periods of time. But if he ever decides to stay...there will be no way out again. “EARTHLY AND SPIRITUAL DELIGHTS AROUND... DENNIS DANVERS'S MOVE TO SF IS A WELCOME

The provocative host of The Herd with Colin Cowherd shares uproarious contrarian observations on topics ranging from O.J. Simpson and Eagles fans to his multiple divorces and the challenges of staying sane.

A standout title in Jean Ure's acclaimed series of humorous, delightful and poignant stories written in the form of diaries and letters which make them immediately accessible to children.

If you enjoy J. R. R. Tolkien--even if you're new to his classic stories--you'll love A Hobbit Devotional featuring 60 humorous, challenging, and encouraging devotionals. Soon to be a major motion picture, The Hobbit has fascinated readers for more than 70 years. Now, this tale of humble folk who overcome fear, discouragement, and despair through steadfastness, courage, and hope forms the basis of a brand-new devotional book. Each reading sketches a scene from The Hobbit, relates it to a contemporary life situation you might experience yourself, and brings in the teaching of a relevant Bible

story or verse.

Dougie and his sisters can't remember the last time it rained. The rainwater tanks are empty, and the creek is just a string of muddy pools where birds and animals come, seeking water. Each day Dad and Dougie cart water from Last Stop Well, an hour down the track. They haul the water up bucket by bucket to fill the tank on the dray, then bump back over the ruts, making clouds of dust. The crops are brown and crisp in the sun. One day, Dougie's dad tells him about his grandfather's gift for water divining, or witching. Dougie wishes he were a water witcher - then they would have a well of their own, always full of water. So Dougie teaches himself the art of water divining and, despite his sisters' teasing and his mother's scepticism, he discovers a night soak of fresh water. Water Witcher brings to life, through the story of one family, the experience of drought-stricken rural Australia during the Depression era. Seen through the eyes of Dougie, the optimism of childhood shines through, despite the tough work and harsh conditions. Jan Ormerod's stunning, evocative illustrations make this a rich and resonating book.

imposed rituals, a child's crib strapped to her back. An observer, Simon, who has loved Ruth since childhood, tells her story. Tshepang was inspired by the horrifying rape in 2001 of a nine month-old child. The child, Tshepang, gave her name to Lara Foot Newton's award-winning play, though it is also 'based on twenty thousand true stories' - the number of child rapes estimated to occur in South Africa each year. Having premiered in Amsterdam in June 2003, Tshepang opened at the Gate Theatre, London, in September 2004. Winner of the Fleur du Cap Award for Best New South African Play 2003
