The Hortas of Janus VI are the greatest miners in the galaxy, capable of burning through solid rock the way humanoids move through air. Recruited to help rebuild Bajor's devastated mining industry, the Hortas could provide new hope for the planet's struggling economy. But when Cardassian raiders abduct the Mother Horta, Commander Sisko finds himself stuck with twenty Horta eggs -- and then the eggs begin to hatch... While Major Kira leads a desperate rescue mission deep into Cardassian space, Commander Sisko faces a ravaging mass of newborn Hortas -- uncontrollable, indestructible, and eager to consume Deep Space Nine™itself!

This textbook presents a comprehensive overview of the environmental impacts of various types of adventure tourism and how these can be best managed. This volume follows on from the authors previous textbook – ‘ Outdoor Recreation: Environmental Impacts and Management ’ and continues the aim of developing a deeper understanding of how tourist numbers impact the environment and to provide practical solutions to these problems. Combining their own first-hand experience and research with extensive literature review the authors' present several popular adventure tourism destinations from across the globe, including the Arctic, the Himalayas, Africa, Australia and Scotland as case studies. Chapters cover the particular challenges faced by each region: including impacts on animals and birds; the spread of invasive plant species and diseases; trail impacts on vegetation; impacts on geological, historical and archaeological sites and pollution and waste issues. A discussion and evaluation of the possible management actions for minimising these impacts and how outdoor recreation tourists can be regulated concludes each chapter. This practical and engaging textbook will be invaluable to students and scholars of adventure tourism and outdoor recreation as well as practitioners and managers working in the field.

"The Legend of Polaris" recounts the remarkable saga of the company that invented the snowmobile. After becoming the number one manufacturer of snowmobiles, Polaris went on to create the first automatic transmission ATV; a line of stable, reliable personal water craft; a sport-boat line; and Victory, the company's celebrated motorcycles.
