With a little planning and foresight, refrigeration is absolutely not necessary. In this book, the author discusses how to store food and make delicious meals without the use of a refrigerator. From milk and cheese to eggs and meat, the book lays out ways any boater, hiker, or camper can have home-cooked meals without artificially freezing or cooling their food. Broken down into handy categories, this reference guide gives techniques on how to properly wash, store, treat, and cook your food for maximum flavor and usability. WWritten by a dedicated sailor whose own skills were honed on months-long journeys, the tips in this guide can be put to use by anyone trying to avoid heavy, power-sucking refrigerators. Sailors, campers, and hikers all could benefit, and the books serves equally well for those in RVs, those with limited space, and those trying to live off the grid.

No matter what anyone tells you, boat cooking IS different from cooking ashore. The space is smaller, there ' s no grocery store 5 minutes away, you have fewer prepared foods and electric appliances, and food storage is much different. Despite cruising different oceans, we—Jan and Carolyn--both faced the same challenges: eating well while having time to enjoy all the other great aspects of cruising. We love to snorkel, swim, kayak, explore—and just sit and admire the view. We learned with the cookbooks we both had aboard, and wished for information that wasn't available--like when Jan ended up with a frozen chicken complete with head and feet and no instructions on how to cut it up. When we couldn't get foods such as sour cream, English muffins, spaghetti sauce or yogurt, we adapted recipes to make our own. Other times, we experimented with substituting ingredients--maybe the result wasn ' t identical, but it was still tasty. We ended up with over 150 substitutions and dozens of " make it yourself " options. As we traded recipes and knowledge with each other, we realized we were compiling information that became The Boat Galley Cookbook: 800+ recipes made from readily-obtainable ingredients with hand utensils, including numerous choices to suit every taste: not just one cake but 20, 16 ways to prepare fish, 10 regional barbeque sauces, and so on. Step-by-step directions to give even " non-cooks " the confidence they can turn out tasty meals without prepared foods. Detailed instructions on unfamiliar things like making yogurt and bread, grilling virtually every food imaginable, preparing and cooking freshly-caught fish and seafood, cutting up and boning meat, cooking in a Thermos and baking on the stove top, as well as lots of tips on how to do things more easily in a tiny, moving kitchen. All this in an easy-to-navigate format including side tabs on the Contents to help you find your way and extensive cross reference lists at the end of each chapter. Quick Reference Lists provide idea starters: suggestions of included recipes for such categories as Mexican, Asian, and Potluck. The Boat Galley Cookbook is designed to help you every step of the way. We hope it becomes a trusted reference on your boat, and a source of many enjoyable meals.

A 192 pages diary with year planner, world time zone, address book, personal details and body mass measurement. 2 days a page with monthly calendar on each page.

Guide to cruising locations along the Victorian coast and through the Bass Strait islands to Northern Tasmania. Includes descriptions of locations, possible anchorages, key contacts and facilities, and is illustrated with figures based on charts.

The fourth edition of this textbook maintains the standards of excellence that have resulted in a national award of shortlist commendation for every previous edition. This text, used in TAFE, business colleges and universities across Australia, provides the most current and comprehensive guide to business law in 2003.
