Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

A “highly enjoyable” account of six men, and one woman, who journeyed into uncharted and treacherous African terrain to find the source of the White Nile (The Washington Post). Nothing obsessed explorers of the mid-nineteenth century more than the quest to discover the source of the White Nile. It was the planet’s most elusive secret, the prize coveted above all others. Between 1856 and 1876, six larger-than-life men and one extraordinary woman accepted the challenge. Showing extreme courage and resilience, Richard Burton, John Hanning Speke, James Augustus Grant, Samuel Baker, Florence von Sass, David Livingstone, and Henry Morton Stanley risked their lives and reputations in the fierce competition. National Book Critics Circle Award-winning author Tim Jeal deploys fascinating new research to provide a vivid tableau of the unmapped “Dark Continent,” its jungle deprivations, and the courage—as well as malicious tactics—of the explorers. On multiple forays launched into east and central Africa, the travelers passed through almost impenetrable terrain and suffered the ravages of flesh-eating ulcers, paralysis, malaria, deep spear wounds, and even death. They discovered Lakes Tanganyika and Victoria and became the first white people to encounter the kingdoms of Buganda and Bunyoro. Jeal weaves the story with authentic new detail—and examines the tragic unintended legacy of the Nile search that still casts a long shadow over the people of Uganda and Sudan. “A fabulous story...old-fashioned epic adventure.”—The Sunday Times “Superb narrative...a must-read for anyone hoping to understand the internal dynamics of modern state-building in central Africa.”—Booklist
