## 8th Grade Science Interactive Notebook in 2020 ...

Introduction. This year we will be using the interactive notebook concept as a central part of our class. Each student will maintain their notebook everyday to keep notes, classwork, homework and visual aids together in one place. As we go through the year and add to this notebook, it will become a personalized textbook for the student, containing helpful information and all the materials needed to study for tests and be prepared for class.

So an Interactive Science Notebook is:  
• A student thinking tool  
• An organizer for inquiry questions and what I learned  
• A way to access and process the learning utilizing various modalities (writing, drawing, and discussion)  
• A place for writing rough drafts based on hands-on learning  
• A formative assessment tool for teachers

A multi-faceted thought processing motivational economic approach on interpreting emotions and learning, integrated into a multi- platform educational process aimed towards producing individualistic progress and topic retention. Creative thought processing exercises help yield abstract thought and objectivity towards the world. Introducing and defining different information processing learning methods through story analysis, cultural, artistic, and musical expression help in accomplishing this goal. This is applicable in multiple settings and relevant on several levels of human interaction and development. Complete with original illustrations depicting each theme and photography complimenting reflections on how nature improves mental health.
