Here is Jon Krakauer’s portrait of the iconoclastic architect Christopher Alexander, whose revolutionary human-centered approach has shaken the foundations of modern architecture. Krakauer delves into Alexander’s life and career, from his theories on a timeless (pattern language) that could be used to create buildings and towns that were simultaneously more livable and more beautiful, to his belief that architecture is correctly viewed as a powerful social instrument; from his on-site drafting techniques to his design process that, like a cocoon, shapes a building from the inside out. With trademark rigor, nuance, and insight, Krakauer powerfully draws us into Alexander’s singular vision of human-centered design/one in which people reclaim control over their built environment.

It features a single protagonist, Hemingway’s recurrent autobiographical character Nick Adams, whose speaking voice is heard just twice. The story explores the destructive qualities of war which is countered by the healing and regenerative powers of nature. When it was published, critics praised Hemingway’s sparse writing style and it became an important work in his canon. The story is one of Hemingway’s earliest pieces to employ his Iceberg Theory of writing; a modernist approach to prose in which the underlying meaning is hinted at, rather than explicitly stated. "Big Two-Hearted River" is almost exclusively descriptive and intentionally devoid of plot. Hemingway was influenced by the visual innovations of Cezanne’s paintings and adapted the painter’s idea of presenting background minutiae in lower focus than the main image. "The gripping articles collected in Classic Krakauer—originally published in magazines such as The New Yorker, Outside, and Smithsonian—show why he is considered a standard-bearer of modern journalism. Spanning an extraordinary range of subjects and locations, these pieces take us from a horrifying avalanche on Mount Everest to a volcano poised to obliterate a big chunk of Seattle; from a wilderness teen-therapy program run by apparent sadists to an otherworldly cave in New Mexico, studied by NASA to better understand Mars; from the notebook of one Fred Beckey, who catalogued the greatest unclimbed mountaineering routes on the planet, to the last days of legendary surfer Mark Foo. Rigorously researched and vividly written, marked by an unerring instinct for storytelling and scoop, these pieces are unified by the author’s ambivalent love affair with unruly landscapes and his relentless search for truth"—

Still considered one of the best books ever written about bullfighting, Death in the Afternoon is an impassioned look at the sport by one of its true aficionados. It reflects Hemingway’s conviction that bullfighting was more than mere sport and reveals a rich source of inspiration for his art. The unrivaled drama of bullfighting, with its rigorous combination of athleticism and artistry, and its requisite display of grace under pressure, ignited Hemingway’s imagination. Here he describes and explains the technical aspects of this dangerous ritual and (the emotional and spiritual intensity and pure classic beauty that can be produced by a man, an animal, and a piece of scarlet serge draped on a stick.ⓘ Seen through his eyes, bullfighting becomes a richly choreographed ballet, with performers who range from awkward amateurs to masters of great elegance and cunning. A fascinating look at the history and grandeur of bullfighting, Death in the Afternoon is also a deeper contemplation of the nature of cowardice and bravery, sport and tragedy, and is enlivened throughout by Hemingway’s sharp commentary on life and literature.
