Highly readable, well researched, and current, *Adapting Early Childhood Curricula for Children with Special Needs*, 9/e uses a developmental focus, rather than a disability orientation, to discuss typical and atypical child development and curricular adaptations, and encourage the treatment of students as children first, without regard to their learning differences. This integrated but non-categorical approach assumes that children are more alike than different in their development, and ...

Cook, Klein & Chen, *Adapting Early Childhood Curricula for ...*

For students taking courses in early childhood special education. A practical, activity-based approach to early childhood special education built on a foundation of theory and research. This comprehensive text on early childhood special education emphasizes a developmental focus over a disability focus. The authors believe that children are more alike than different in their developmental processes and avoids the negative impact of labeling children with disability categorical names.

*Adapting and Modifying Early Childhood Curriculum*

*Adapting Early Childhood Curricula for Children with Disabilities and Special Needs* uses a developmental focus, rather than a disability orientation, to discuss typical and atypical child development and curricular adaptations. The integrated, non-categorical approach assumes that children are more alike than different in their development.

Adapting early childhood curricula for children with ...

For Early Childhood Special Education methods courses. This comprehensive text takes a non-categorical approach to preparing future early childhood teachers to help infants and young children with disabilities meet their challenges and develop to their fullest potential. Coverage is organized around four themes: how all young children learn, children in the context of their family, traditional developmental domains, and the need to take a synthesized view of the “whole” child.
