Engineer (AME) range from line maintenance, day-to-day care, and defect rectification to base maintenance which can include major modification and repair of the aircraft structure or systems. In many approved maintenance organizations (AMOs), the AME supervises the work of teams of less experienced personnel.

~~Aircraft Engineering Inc.~~

Why this subject? Prime objective of an AME is to maintain an aircraft in airworthy condition so that it can fly safe and reach its destination with all its passenger safely. If there is an error in maintenance or ignorance of maintenance procedure by maintenance personnel then the life of passengers and crews and machine is at stake. So it is important that the persons involved in maintenance of aircraft must have proper knowledge of procedures and practices involved in maintenance of
