Akira Seiki USA

I had Akira Seiki run a program for me and it took 1.26minutes to run with the high speed turned on and the Sharp with the Fanuc Oi control and the high speed on it could only do the program in 3.49 minutes. The New Mori Duravertial without high speed could only do it in 25minutes. I hear they are very reliable as long as you keep the limit switches clean. Also if you look at the main ...
