Note It all started with an idea, which led to an animation. The idea came from my childhood - I used to dress up as my favorite action-figure and run around the neighborhood pretending I was that toy.

Download File PDF Automotive

I wanted to run with this idea of imagination - a boy with his imagination. However, I had another passion - education. I truly wanted to show young souls how much fun it could be to learn about topics such as History with just a touch of imagination. So I created Billy - a young boy eager to travel not just to different places,

but to different time periods. Kids will enjoy flipping each page, seeing the beautiful colors, characters and events that formulated our world. Billy uses his trusty Time Machine to take kids to these places, teaching them everything they need to know. Best part is, the books are interactive, as I have added fun games and

trivia in the back of every book, just like I remember ruining the lovely books my mother bought for me, scribbling in them as a young child. With Infinite Travels, you don't need to worry about that. The kids can color and fun as well as learn in the process. To see the animation I've created before Infinite Travels was even an idea
