In an age of terror, national leaders face this sort of question every day. Should we negotiate with the Taliban? Iran? North Korea? What about terrorist groups holding hostages? In private disputes, you may face devils of your own. A business partner has betrayed you and now wants to negotiate a better deal. Your marriage is ending and your spouse is making extortionist demands. A business competitor has stolen your intellectual property. Your sister is fighting you over an inheritance. In cases such as these, you feel outraged. Your gut tells you to fight it out in court. But when facing a devil | anyone you perceive as a harmful adversary | it may make more sense to negotiate rather than fight, says Robert Mnookin, the internationally renowned leader in the art of negotiation. How do you decide? In Bargaining with the Devil, Mnookin provides tools for confronting adversaries of all kinds. Using eight conflicts drawn from history (including fascinating examples such as Churchill's approach to Hitler, and Nelson Mandela's response to South Africa's apartheid regime), as well as his own professional experience, he offers a framework that applies equally to international conflicts and everyday life. "There is no easy, categorical answer," Mnookin warns. "Sometimes you should bargain with the Devil and other times you should refuse." The challenge lies in making wise decisions in particular circumstances. This book shows you how.

Zak, author of Trust Factor: The Science of Creating High-Performance Companies From leading negotiation expert Russell Korobkin comes this revelatory guide that distills the keys to bargaining into five simple-yet-sophisticated tools that anyone can master. The Five Tool Negotiator stands apart in a category saturated with breezy, self-help volumes as a compulsively readable and highly researched must-have for anyone looking to improve their bargaining skills. Nationally renowned UCLA law professor Russell Korobkin distills insights drawn from his decades of studying and teaching the keys to successful negotiations into five simple-yet-sophisticated strategies: Bargaining Zone Analysis * Persuasion * Deal Design * Power * and Fairness Norms. Incorporating lively anecdotes and fascinating social science experiments, Korobkin brings to life concepts from the disparate fields of psychology, economics, and game theory. Designed for use at both the flea market and in the C-suite, this game-changing, universal approach provides a formula that a savvy reader can implement immediately: · Tool #1, Bargaining Zone Analysis, enables you to identify the range of agreements that will benefit both parties. · Tool #2, Persuasion, convinces your counterpart that reaching an agreement will benefit them more than they otherwise would have recognized, making them willing to give you more. · Tool #3, Deal Design, structures the agreement in ways that increase its value to both parties. · Tool #4, Power, forces your counterpart to agree to terms relatively more desirable to you. · Tool #5, Fairness Norms, enables you to seal a bargain that both parties can feel good about. From negotiating the price of a used car to closing a multimillion-dollar merger, Korobkin meticulously explains how to answer the following questions that arise in every negotiation: Should you make the first offer or let the other side go first? What makes some proposals seem more fair than others? How do you decide whether to accept an offer, reject it, or make a counteroffer? When should you propose an unusual agreement structure? What steps can you take to make a bluff believable? Readers will come away with a roadmap to becoming a truly complete negotiator, able to understand bargaining as both a strategic and social activity. Intuitively accessible and reassuringly persuasive, The Five Tool Negotiator promises to be a classic in the art of bargaining strategy.

Start with No offers a contrarian, counterintuitive system for negotiating any kind of deal in any kind of situation!the purchase of a new house, a multimillion-dollar business deal, or where to take the kids for dinner. Think a win-win solution is the best way to make the deal? Think again. For years now, win-win has been the paradigm for business negotiation. But today, win-win is just the seductive mantra used by the toughest negotiators to get the other side to compromise unnecessarily, early, and often. Win-win negotiations play to your emotions and take advantage of your instinct and desire to make the deal. Start with No introduces a system of decision-based negotiation that teaches you how to understand and control these emotions. It teaches you how to ignore the siren call of the final result, which you can't really control, and how to focus instead on the activities and behavior that you can and must control in order to successfully negotiate with the pros. The best negotiators: * aren't interested in "yes" they prefer "no" * never, ever rush to close, but always let the other side feel comfortable and secure * are never needy; they take advantage of the other party's kindness * create "blank slate" to ensure they ask questions and listen to the answers, to make sure they have no assumptions and expectations * always have a mission and purpose that guides their decisions * don't send so much as an e-mail without an agenda for what they want to accomplish * know the four "budgets" for themselves and for the other side: time, energy, money, and emotion * never waste time with people who don't really make the decision Start with No is full of dozens of business as well as personal stories illustrating each point of the system. It will change your life as a negotiator. If you put to good use the principles and practices revealed here, you will become an immeasurably better negotiator.

Using new archival sources--including previously secret documents of the East German secret police and Communist Party--M. E. Sarotte goes behind the scenes of Cold War Germany during the era of detente, as East and West tried negotiation instead of confrontation to settle their differences. In Dealing with the Devil, she explores the motives of the German Democratic Republic and its Soviet backers in responding to both the detente initiatives, or Ostpolitik, of West Germany and the foreign policy of the United States under President Nixon. Sarotte focuses on both public and secret contacts between the two halves of the German nation during Brandt's chancellorship, exposing the cynical artifices constructed by negotiators on both sides. Her analysis also details much of the superpower maneuvering in the era of detente, since German concerns were ever present in the minds of leaders in Washington and Moscow, and reveals the startling degree to which concern over China shaped European politics during this time. More generally, Dealing with the Devil presents an illuminating case study of how the relationship between center and periphery functioned in the Cold War Soviet empire.

The great majority of startups fail, and most entrepreneurs who have succeeded have had to bounce back from serious mistakes. Entrepreneurs fumble key interactions because they don't know how to handle the negotiation challenges that almost always arise. They mistakenly believe that deals are about money when they are much more complicated than that. This book presents entrepreneurship as a series of interactions between founders, partners, potential partners, investors and others at various stages of the entrepreneurial process - from seed to exit. There are plenty of authors offering "tips" on how to succeed as an entrepreneur, but no one else scrutinizes the negotiation mistakes that successful entrepreneurs talk about with the authors. As Dinnar and Susskind show, learning to handle emotions, manage uncertainty, cope with technical complexity and build long-term relationships are equally or even more important. This book spotlights eight big mistakes that entrepreneurs often make and shows how most can be prevented with some forethought. It includes interviews with high-profile entrepreneurs about their own mistakes. It also covers gender biases, cultural challenges, and when to employ agents to negotiate on your behalf. Aspiring and experienced entrepreneurs should pay attention to the negotiation errors that even the most successful entrepreneurs commonly make.
