Spectacular illustrations and accessible scholarship make for a rare and wonderful reference book ... Into the night, soaring with bats: a tour-de-force fantasy starring a chiropteran hero ...

Laurence Pringle takes a fascinating look at earth's only flying mammal in this fun and informative Parents' Choice Award book. Readers will learn how bats can pluck insects from the air, and even fish from the water. They will discover how bats help giant trees and other tropical plants to reproduce, and gobble up pesky mosquitoes. They will find out, too, how you can help to protect bats and their homes. Dozens of bats swoop through Meryl Henderson's striking illustrations. The colorful art and clear, concise text together demonstrate that bats may be strange, but that they are wonderful too, and well worth saving.

Are kids going to love this book? Is a frog waterproof? The latest title in the popular Strange and Wonderful series delivers the awe-inspiring variety of frogs, the world's hoppiest amphibians. Did you know that the Goliath frog is more than a foot long? Or that the tiny gold frog could sit on a dime? Some frogs have camouflage. Others wear bold colors warning their enemies that they are poisonous. Some frogs leap, others hop, one is a runner, and a few glide from tree to tree with their big, webbed hands and feet! Surprising facts and beautiful, realistic nature illustrations come together in this celebration of one of nature's most fascinating marvels.

A look at the world of snakes presents the many types found around the world and reviews their similarities, differences, and unique abilities.

Presents facts about owls, including their varieties, habits, habitats, and characteristics.

"Definitely the best cicada book for kids. Adults will appreciate it as well, as it is well written, factually accurate, and beautifully illustrated." —Cicadomania.com Discover why cicadas are all the buzz in the most complete, comprehensive book for kids about these noisy but harmless insects. Every year, annual cicadas emerge and pierce the air with their buzzing calls. Also every year, at least one brood of 13 or 17 year cicadas emerges in some part of the eastern or central United States. In Spring 2021, a group of 17 year periodical cicadas called Brood X will make their appearance in the Mid-Atlantic region of the United States. Author Laurence Pringle and illustrator Meryl Henderson have created the story of this fascinating and often misunderstood insect, one that deserves to be protected.

Introduces scorpions, discussing their life cycle, habits, behaviors, and characteristics.

An accessible and comprehensive introduction to spider species from all over the world.--

Introduces Seaman, the Newfoundland dog that served as hunter, retriever, and guard dog on the Lewis and Clark expedition through the Northwest Territory of the United States at the beginning of the nineteenth century.

An introduction to dolphin species from around the world, including bottlenose dolphins and several species of orcas. Describes dolphin habitats, physiology, communication, intelligence, parenting, eating habits, and other facts. Also discusses conservation and how to protect dolphins from hunting, pollution, and other threats.--

Learn about he strange and wonderful creature called an octopus.
