Blame My Brain: the Amazing Teenage Brain Revealed by ...

Written for teenagers but invaluable reading for those coping with them—parents, doctors, and teachers— Blame My Brain , a guide to the biology behind teenage behaviour, is informative, accessible, interactive, and fun.

Blame My Brain: The Amazing Teenage Brain Revealed

Blame My Brain. Blame My Brain was the first book in the world to show teenagers what's going on in their heads. It changed the way adults think about adolescence. It speaks directly to teenagers but parents and teachers usually grab it and devour it eagerly. What scientists have discovered about the teenage brain will amaze, empower and reassure you, whether you're a teenage or an adult who cares about teenagers.

Blame My Brain - bitofnews.com

Blame My Brain – The Amazing Teenage Brain Revealed by Nicola Morgan. I have worked with a lot of adolescents and their parents; a reoccurring parental comment is ‘I have no idea as to what is going on inside their head’. This book is written for both adolescents, and their parents it combines research and science with humour, whilst explaining in simple terms lots about risk taking, the need for sleep, feeling down and differences between the female and male brain.
