The BMW F650 Funduro will probably never reach the same classic status as some of its stable mates. But despite its unfortunate name, it’s surprisingly worthy of consideration. Released in 1993, it was the first BMW not made by BMW (it was made by Aprilia). It was the first BMW not powered by a BMW motor (Rotax), and the first BMW with a chain drive. . And it launched the Bavarian marque’s ...

This gave the BMW development team the idea for a “funduro”, i.e. an enduro bike that was also a hoot to ride on the road. It would be smaller, more compact and cheaper than the highly successful G/S, which was already an established presence on the market. And thus the F 650 was born, the comeback of the single-cylinder engine at BMW complete.

"Riding a bike removes the need for clutter, toys, rubbish that other men have to take on holiday. If I want adrenaline, I'll rush a giddy overtake, not rent a jet ski."The world through the eyes of Dan Walsh is never less than Technicolor, and always uninhibited, rebellious and on the edge. Not since the days of Jupiter's Travels has one man embarked on such an angry, narcotic-fuelled bike trek around the world."For me, Chile will always be South America's supermodel sister - very beautiful but too long, too skinny, and too expensive to ride, and despite the groovy exterior, unpleasantly right-wing underneath."Dan has travelled the length and breadth of the world on his BMW F650 GS Dakar. Along the way he's visited Buenos Aires, where 'revolutionary' means the angry poor invading the presidential palace, not a really small phone that's also a camera. He's been mistaken for a bum in New York, bashed by deadly tequila in Mexico, contracted typhoid in a dilapidated Bolivian hotel, and visited The Most Beautiful Road in the World in Peru."I get my bum pinched by a tranny, my pocket picked by a grifter and get a gun pulled on me by a one-eyed, one-armed midget who's upset cause I winked at him. These are the days that must happen to you."Soaked in adrenaline and coruscatingly funny, Dan Walsh is the rightful heir to Ted Simon as the pre-eminent biker-rebel of our generation.

Everything you want to know about forty of the most iconic BMW motorcycles. BMW Motorcycles offers history and photography on forty of the most iconic motorcycles built by Germany's leading motorcycle manufacturer: BMW. From the pre–World War II BMWs that defined performance in that era, to the Earles-forked machines that offered the perfect platform for mounting a Steib sidecar, to the "flying bricks," to the GS (Gelände Sport) series that launched a dual-sport revolution, right up to today's world-class superbikes. All of BMW's bike families are covered—the side-valve machines from the pre–World War II years, the early overhead-valve performance bikes, the postwar Airheads and Oilheads, the three-cylinder, four-cylinder, and six-cylinder touring bikes, the early pushrod singles, the modern overhead-cam singles, the latest parallel twins, and inline-four cylinder sport bikes. From the first model, the R32 that launched BMW's motorcycle dynasty, to the latest (and fastest) model, the World Super Bike dominating S1000RR, this book captures nearly a century of motorcycling excellence with thorough information and stunning, full-color photography.

Every red-blooded motorcyclist dreams of making the Big Trip--this updated fifth edition shows them how. Choosing a bike, deciding on a destination, bike preparation, documentation and shipping, trans-continental route outlines across Africa, Asia and Latin America, and back-country riding in SW USA, NW Canada and Australia. Plus--first hand accounts of biking adventures worldwide.
