From the celebrated New Yorker cartoonist and acclaimed author of *Cancer Vixen*, a brilliant, funny, and wildly imaginative first novel: the story of an influential gossip columnist brought face-to-face with her higher self—and a challenge to change her life for the better. Glamorous, superconnected Ann Tenna is the founder of Eyemauler, a New York City-based Web site that's always the first to dish the most up-to-the-minute dirt on celebrities and ordinary folks alike. Ann has ascended to the zenith of the New York media scene, attended by groups of grovelers all too willing to be trampled on by her six-inch Giuseppe Zanottis if it means better seats at the table. But as high as her success has taken her, Ann has actually fallen far—very far—from her true self. It takes a near-fatal freak accident on her birthday—April Fool's Day—and an intervention from her cosmic double in a realm beyond our own to make Ann realize the full cost of the humanity she has lost. Told with laugh-out-loud humor, spot-on dialogue (including via cameo appearances from Coco Chanel, Gianni Versace, and Jimi Hendrix, to name just a few), and stunning, full-color artwork, Ann Tenna is a timely, necessary tale for our overly “media-cated” times: the newest, much-anticipated adventure from a supremely gifted artist at the height of her powers.

A comprehensive guide to life during and after breast cancer shares practical advice on how to plan a life after diagnosis, covering topics ranging from intimacy and hair loss to working and managing the profound emotions that accompany the disease and its treatments.

At the age of fourteen, David awoke from a supposedly harmless operation to discover his throat had been slashed and one of his vocal chords removed, leaving him a virtual mute. No one had told him that he had cancer and was

expected to die. The resulting silence was in keeping with the atmosphere of secrecy and repressed frustration that pervaded the Small household and revealed itself in the slamming of cupboard doors, the thumping of a punching bag, the beating of a drum. Believing that they were doing their best, David's parents did just the reverse. David's mother held the family emotionally hostage with her furious withdrawals, even as she kept her emotions hidden – including from herself. His father, rarely present, was a radiologist, and although David grew up looking at X-rays and drawing on X-ray paper, it would be years before he discovered the shocking consequences of his father's faith in science. A work of great bravery and humanity, Stitches is a gripping and ultimately redemptive story of a man's struggle to understand the past and reclaim his voice.

a cartoonist examines her experience with breast cancer in an irreverent and humorous graphic memoir.

One of O Magazine's Best Books of Fall 2020 One of Comics Beat's Most Anticipated Graphic Novels for Fall 2020 Writing as if in a fever dream, iconic New Yorker cartoonist Marisa Acocella channels God the Mother and all of the goddesses, saints and sinners, and real-life women from our storied past in this epic retelling that begins with the Big She-Bang. The rest, as they say, is herstory. Hilarious, profound, and (at times) profane, The Big She-Bang is virtuosic storytelling in which the rules are bent back to where they should have started in the first place. It is abundantly clear that the past has been recorded in big books "written by a bunch of men about a bunch of men." Now Acocella challenges our understanding of humanity's past with her own Big Book. Narrated by God the Mother, The Big She-Bang celebrates the Shevolutionaries: a goddess roster that includes Eve, the Marys (Virgin Mother and Magdalene), Persephone, Sophia, Isis, Pope Joan, the Suffragettes, Gloria Steinem, Tarana Burke, Malala, and more. By Klieg-lighting the ways women have been erased, vilified, and dominated across eons—blamed for original sin, destruction, betrayal, witchery, and other assorted (and false) evils and ills—Acocella sets the story straight from the beginning of time to the present day. Not to be exclusionary, this new herstory features cameos from Yaldabaoth, Zeus, Noah, and the Rapacious Phalluses on the rampage. In the end, what hangs in the balance is nothing less than the future of humanity and Mother Earth herself.

"When Jennifer Hayden was diagnosed with breast cancer at the age of 43, she realized that her tits told a story. Across a lifetime, they'd held so many meanings: hope and fear, pride and embarrassment, life and death. And then they were gone. Now, their story has become a way of understanding her story:

a journey from the innocence of youth to the chaos of adulthood, through her mother's mastectomy, her father's mistress, her husband's music, and the endlessly evolving definition of family. As cancer strikes three different lives, some relationships crumble while others emerge even stronger, and this sarcastic child of the '70s finally finds a goddess she can believe in" --
