What does case study work look like in classrooms? Teachers generally start by having students read the case or watch a video that summarizes the case. Students then work in small groups or individually to solve the case study. Teachers set milestones defining what students should accomplish to help them manage their time. During the case study learning process, student assessment of learning should be focused on reflection.

Problems that teachers face include handling student needs, lack of parental support, and even criticism from a public that can be largely unaware of their everyday lives. Addressing these problems and bringing awareness to the educational environment that our teachers and students face daily can help improve teacher retention, student success rates, and the overall quality of education in our ...

Problems for Teachers That Hinder Their Effectiveness

Case studies are chosen for teaching based on how rich the narrative is, and whether the people in the study are required to make a decision or solve a problem. When using case studies, the focus is not on the data or the analysis. The students analyze the case and try to find ways to find solutions and solve problems.

What Exactly is a Case Study? | UniversalClass

The use of case studies can therefore be a very effective classroom technique. Case studies are have long been used in business schools, law schools, medical schools and the social sciences, but they can be used in any discipline when instructors want students to explore how what they have learned applies to real world situations.
