Critical thinking is clear, rational,  
logical, and independent thinking. It's about  
improving thinking by analyzing, assessing,  
and reconstructing how we think. It also means

thinking is more than just a simple thought process. It involves thinking on a much deeper underlying level rather than just at the surface. There is so much information available to us in this world that we don't know what is true and what is not. That's why it's important for students to analyze, think effectively, and understand that not everything is ...
