### Transmission Control Unit - ON Semiconductor

A transmission control unit (TCU), also known as a transmission control module (TCM), or a gearbox control unit (GCU), is a type of automotive ECU that is used to control electronic automatic transmissions. Similar systems are used in various semi-automatic transmissions for clutch automation. A TCU in a modern automatic transmission generally uses sensors from the vehicle as well as data

## INFINITI Wiring Diagrams - Car Electrical Wiring Diagram

The transmission control module is the driving force behind the mechanism of an automatic transmission. It's a small component but is absolutely necessary for the efficient functioning of the transmission. When this little device wears out or gets damaged, your car struggles with a downgraded performance and driving becomes a chore rather than fun.
