Uses market research and analysis to provide values for vintage or collectible instruments, including information on more than eighteen hundred brands accompanied by eleven hundred photographs.

This title contains the proceedings of the 2013 5th International Conference on Advanced Computer Control, held in Singapore. The topics covered include: Modern and advanced

control strategies; human-machine systems; multimedia and communication systems; database systems; robotics and automation; and much more.

Perfect for preparing for the RHIA and RHIT exams! the Comprehensive Review Guide for Health Information serves as a personal tutor for HIM students to review the major learning competencies that will be tested on the exams. the workbook section, divided by knowledge clusters, contains short answer, fill in the blank, and matching questions to assess the students' understanding of the competency after using the comprehensive review book section and listening to audio recordings. At the end of every knowledge cluster, a multiple choice test simulates the questions on the national RHIA and RHIT

LONGLISTED FOR THE 2011 MAN ASIAN LITERARY PRIZE SHORTLISTED FOR THE HINDU LITERARY PRIZE FOR BEST FICTION 2011 WITH HER DEBUT NOVEL, *An Atlas of Impossible Longing*, Anuradha Roy's exquisite storytelling instantly won readers' hearts around the world, and the novel was named one of the best books of the year by *The Washington Post* and *The Seattle Times*. Now, Roy has returned with another masterpiece that is already earning international prize attention, an evocative and deeply moving tale of a young woman making a new life for herself amid the foothills of the Himalaya. Desperate to leave a private tragedy behind, Maya abandons herself to the rhythms of the little village, where people coexist peacefully with nature. But all is not as it seems, and she soon learns that no refuge is remote enough to keep out the modern world. When power-hungry politicians threaten her beloved mountain community, Maya finds herself caught between the life she left behind and the new home she is determined to protect. Elegiac, witty, and profound by turns, and with a tender love story at its core, *The Folded Earth* brims with the same genius and love of language that made *An Atlas of Impossible Longing* an international success and confirms Anuradha Roy as a major new literary talent.

Jan van Eyck's Ghent Altarpiece is on any art historian's list of the ten most important paintings ever made. Often referred to by the subject of its central panel, *The Adoration of the Mystic Lamb*, it represents the fulcrum between the Middle Ages and the Renaissance. It is also the most frequently stolen artwork of all time. Since its completion in 1432, this twelve-panel oil painting has been looted in three different wars, burned, dismembered, forged, smuggled, illegally sold, censored, hidden, attacked by iconoclasts, hunted by the Nazis and Napoleon, used as a diplomatic tool, ransomed, rescued by Austrian double-agents, and stolen a total of thirteen times. In this fast-paced, real-life thriller, art historian Noah Charney unravels the stories of each of these thefts. In the process, he illuminates the whole fascinating history of art crime, and the psychological, ideological, religious, political, and social motivations that have led many men to covet this one masterpiece above all others.

While working for the Bureau of Breed Affairs, Diana Broen is paired with a new team member, Lawe Justice, whose touch awakens a hunger she could have never prepared for. Original.

The second book in a stunning new series from Sunday Times bestseller, Dilly Court

A noted philosopher proposes a naturalistic (rather than supernaturalistic) way to solve the "really hard problem": how to live a life that really matters-even as a finite material being living in a material world.
