inscriptions and material remains. The second—based extensively on archival sources—connects ancient and modern India through a discussion of the beginnings of Indian archaeology and the discovery, interpretation, and reinvention of ancient sites in colonial and post-colonial times. The third underlines the importance of reconstructing the intellectual landscape of ancient India through a sensitive, yet, critical historicization of political ideas in texts and inscriptions. The final section makes a strong case for situating ancient India within a broader, Asian, frame.

Basic Approach Developed as a comprehensive introductory work for scholars and students of ancient and early medieval Indian history, this books provides the most exhaustive overview of the subject. Dividing the vast historical

Expanding from the stone age to the 12th century into broad chronological units, it constructs profiles of various geographical regions of the subcontinent, weaving together and analysing an unparalleled range of literary and archaeological evidence. Dealing with prehistory and protohistory of the subcontinent in considerable detail, the narrative of the historical period breaks away from conventional text-based history writing. Providing a window into the world primary sources, it incorporates a large volume of archaeological data, along with literary, epigraphic, and numismatic evidence. Revealing the ways in which our past is constructed, it explains fundamental concepts, and illuminates contemporary debates, discoveries, and research. Situating prevailing historical debates in their contexts, Ancient and Early Medieval India presents balanced assessments,

Margarita Diaz-Andreu offers an innovative history of archaeology during the nineteenth century, encompassing all its fields from the origins of humanity to the medieval period, and all areas of the world. The development of archaeology is placed within the framework of contemporary political events, with a particular focus upon the ideologies of nationalism and imperialism. Diaz-Andreu examines a wide range of issues, including the creation of institutions, the conversion of the study of antiquities into a profession, public memory, changes in archaeological thought and practice, and the effect on archaeology of racism, religion, the belief in progress, hegemony, and resistance.
