Helena Kennedy's *Eve Was Framed: Women and British Justice*. I love this book. It's an utterly brilliant deconstruction of the systemic misogyny and racism endemic in the British justice system. Kennedy basically takes a swipe at the hypocrisy, prejudices and ignorance of police officers, lawyers, judges and juries; at those destructive theories of hyper-masculinity and femininity which criminalise women for being women.

Eve Was Framed. Baroness Helena Kennedy's *Eve Was Framed: Women and British Justice* is so much more than a book about law. It is not a book which will tell you what the law is, in which situations to apply the law, how the law is passed etc. That would be function of a textbook. This book is a polemic and therefore asserts Kennedy's opinion on the injustice of the criminal law by critiquing the intimidating nature of court with the paraphernalia of wigs and gowns, assessing the impact of ...

Eve Was Framed offers an impassioned, personal critique of the British legal system. Helena Kennedy focuses on the treatment of women in our courts - at the prejudices of judges, the misconceptions of jurors, the labyrinths of court procedures and the influence of the media. But the inequities she uncovers could apply equally to any disadvantaged group - to those whose cases are subtly affected by race, class poverty or politics, or who are

What comes after #MeToo? One of our most eminent lawyers and defenders of human rights answers with this urgent, authoritative and deeply shocking look at British justice *In Eve Was Shamed* Helena Kennedy forensically examines the pressing new evidence that women are still being discriminated against throughout the legal system, from the High Court (where only 21% of judges are women) to female prisons (where 84% of inmates are held for non-violent offences despite the refrain that prison should only be used for violent or serious crime). In between are the so-called ‘lifestyle’ choices of the Rotherham girls; the failings of the current rules on excluding victims’ sexual history from rape trials; battered wives

being asked why they don't 'just leave' their partners; the way statistics hide the double discrimination experienced by BAME and disabled women; the failure to prosecute cases of female genital mutilation... the list goes on. The law holds up a mirror to society and it is failing women. The #MeToo campaign has been in part a reaction to those failures. So what comes next? How do we codify what we've learned? In this richly detailed and shocking book, one of our most eminent human rights thinkers and practitioners shows with force and fury that change for women must start at the heart of what makes society just.

Two women a week are killed by a spouse or partner. Every seven minutes a woman is raped. Now is the time for change.

of *Invisible Women* Helena Kennedy, one of our most eminent lawyers and defenders of human rights, examines the pressing new evidence that women are being discriminated against when it comes to the law. From the shocking lack of female judges to the scandal of female prisons and the double discrimination experienced by BAME women, Kennedy shows with force and fury that change for women must start at the heart of what makes society just. ‘An unflinching look at women in the justice system... an important book because it challenges acquiescence to everyday sexism and inspires change’ *The Times*

Acute, questioning, humane and passionately concerned for justice, Helena Kennedy is one of the most powerful voices in legal circles in Britain today. Here she roundly challenges the record of modern

governments over the fundamental values of equality, fairness and respect for human dignity. She argues that in the last twenty years we have seen a steady erosion of civil liberties, culminating today in extraordinary legislation, which undermines long established freedoms. Are these moves a crude political response to demands for law and order? Or is the relationship between citizens and the state being covertly reframed and redefined?
