Friday, 30th December. It's tragic when a good quote is ruined by its context. Versions of the HL Mencken quip about simple solutions to complex problems delights those of us who love wicked problems. A common version of the quote is "For every complex problem there is an answer that is clear, simple, and wrong." After thirty years of education I shouldn't repeat a quote without verifying its source, especially since it is so easy to do so these days.
