Club Car makes some changes. The
next radical change in the 1990s was
under the hood. In 1992, the
company switched to a 9 horse power
286cc Kawasaki engine, dropping the
older 341 cc side valve engine. And in
1995 it came out with its first 48-volt
electric engine option, an upgrade

Where To Download Fe290 Kawasaki Engine 1996 Club

from the previous 36-volt option.
