Building on recent revisionist histories of the quality and ability of the late medieval clergy, this is a comprehensive survey of the ordinations of priests at the Roman curia during the pontificates of Pius II (1458-1464) and Paul II (1464-1471). This period has often been presented as one of stasis within the Catholic Church, falling between the conciliar movement of the first half of the fifteenth century and the Protestant Reformation and counter-reformation of the sixteenth century. However the authors argue that this period was one of gradual reform, whereby the Church attempted to define and control the quality of the clergy. The study analyses archival documentation to reconstruct exactly how young men entered a clerical career, and also what influence practices at the curia had on wider clerical ordinations. The book concentrates especially on the role of the Apostolic Penitentiary in controlling the quality of priest candidates and on the role of Camera Apostolica in carrying out ecclesiastical ordinations in the papal curia. In considering the rules of who could enter the clerical career, and also why and how these rules might be circumvented, this book sheds new light on the late medieval clergy.

Through the friendship of two young Franco-Iranians, Exiles from Paradise is a novel that delves deep into the great conflict between enlightened Islam and fanaticism. Despite their academic achievements, Farhad and his circle of friends feel estranged from Paris, the city they grew up in, as they face prejudice from prospective employers and rejection for their Islamic culture. Searching for his roots, Farhad travels to Iran where he discovers that his ancestors fought the Assassins, the first terrorists in history. Encouraged by this glorious past and in a quest to track down a long-lost heirloom, the rare Alamut stone, Farhad follows the trail to London. His closest friend Reza is working for an Islamic charity in London, but his behaviour is becoming increasingly withdrawn, prompting fears of radicalisation. Farhad's courageous response is a hymn to bravery and ancestral values. First published in France to critical acclaim, Exiles from Paradise is a thought-provoking novel about discrimination, heritage and belonging. Brigitte Ades' captivating novel is a celebration of Iranian culture, community and connection, as well as a powerful interrogation of the nature of nationality and identity in the 21st century. Translated from the French by Iain Watson and Rosie Capell

A forensic, entertaining polemic from the author of The Pope's Children. Ireland is deeply in debt, beholden to the IMF, the EU and the bond markets. Its economy is frozen, and years of austerity are ahead. It didn't have to be this way - and it doesn't have to be this way. In The Good Room, David McWilliams, who spotted the dangers of the Irish property bubble and imbalances within the eurozone at a time when other commentators were cheerleading the boom, explains the bizarre economics behind Ireland's current predicament, and illuminates a different path for the country. He illustrates the consequences of debt and austerity for ordinary Irish people and explains why austerity can't work. And he shows that history offers numerous useful models for Irish recovery - provided we open our eyes to them. Economics is about people like you. The Pope's Children was the book that connected the dots between economics and daily life in Ireland during the boom years. The Good Room does the same for the Ireland of the bust, and is - in its call for a completely different approach - an even more urgent and necessary work. 'McWilliams has a great knack for bringing a complex economics story to life. He is also funny. In economics, that's a rare and persuasive combination.' Stephanie Flanders, Irish Times 'A gifted and often courageous polemicist who has done more to popularize the debate about economics in Ireland than anyone else' Irish Independent 'McWilliams makes a compelling argument for the need for a different approach to Irish and European economic management ... [A] realistic, pragmatic call for innovative policies that take account of proven economic theory' Sunday Business Post David McWilliams is Ireland's leading popular economist, and a columnist for the Irish Independent and the Sunday Business Post. He is the author of the bestsellers The Pope's Children, The Generation Game, and Follow the Money.

In spite of all the assistance offered by electronic control systems, the latest generation of passenger car chassis still relies on conventional chassis elements. With a view towards driving dynamics, this book examines these conventional elements and their interaction with mechatronic systems. First, it describes the fundamentals and design of the chassis and goes on to examine driving dynamics with a particularly practical focus. This is followed by a detailed description and explanation of the modern components. A separate section is devoted to the axles and processes for axle development. With its revised illustrations and several updates in the text and list of references, this new edition already includes a number of improvements over the first edition.
