IB Biology is challenging, college-level course, so there will be times when you will need more help than your class notes can give you in preparing for the final exam. In this comprehensive and easy to understand exam preparation, Dr. Goulds compiles both SL and HL information into one user-friendly resource, and provides you with many IB Biology related practice questions. Written by a well-respected American professor, biologist, and one of the most widely read writers of her generation, this exam preparation is a must for students wishing to maximize their IB Biology score. If you are looking for material that closely parallels the questions in the whole IB Biology Exam, this book is a must. You can skip to the end of the book to the reviews/questions section for great overall study resources at any point. We highly recommend that you use this guide throughout the year as a refresher before tests and quizzes, as well as for additional support if you did not entirely understand a specific lesson in your IB Biology class.

Imagine a study guide actually designed for teachers! Because we know you've got a busy life, we've developed a study guide that isn't like other certification materials out there. With Cirrus Test Prep's unofficial Praxis II Biology Content Knowledge (5235) Study Guide 2019-2020: Exam Prep and Practice Test Questions for the Praxis 5235 Exam you get a swift but full review of everything tested on your certification exam. FREE online resources are also included with your study guide! Imagine having FREE practice questions, digital flash cards, study "cheat" sheets, and 35 test tips available anytime, anywhere on your cell phone or tablet.
