The RS Turbo was somewhat of a disappointment; ... RS 1700T. The Ford Escort RS 1700T was a prototype RWD car designed by Ford Motor Company in 1980 to compete in Group B rallying. Prototypes were based on the Mk III Escort and featured a Cosworth developed 1.8-litre turbocharged four-cylinder engine that produced over 300 bhp (224 kW) maximum power. Also a prototype with a 2.4 litre Hart ...

Escorts Mk1 and Mk2 were built in huge numbers around the world, in Britain, France, Germany, Spain, Australia, New Zealand and South Africa. During the life of the models, no less than 130 different variants were produced, ranging from the 2-door base model saloon through four-doors, vans and estates, campers and plush Ghia models to the highly desirable sporting versions like the Twin-Cam and RS models. In addition there were special editions by companies such as Allard, Crayford, Broudspeed, Lawrencecenture, Uren and Willment. For every variant, The Complete Catalogue of the Ford Escort Mk1 & Mk2 provides specifications and a description, and all of them are illustrated.

The inside story of how Rallye Sport Fords were created by Ford in the 70s and 80s, enabling works' and private teams to be fully competitive in national and international rallies and races, to win many championships, and for RS cars to be bought by over 100,000 enthusiast customers! with around 200 photos and illustrations, many previously unpublished, this formerly untold story is brought vividly to life.

Ford's legendary Sierra and Escort RS Cosworths changed the face of performance road cars, making them as desirable to keen drivers as they are to classic collectors. This quick-reference guide acts as a handy pocket-sized companion during the purchasing process. It aims to help buyers select the best car, pay the right price, and avoid the potential pitfalls. This one-stop package of great advice includes at-a-glance tips, illustrated in-depth inspection guidance, specifications, notes on modifications, and real-world cost considerations.

When Ford teamed up with Cosworth Engineering to breathe life onto its humdrum Sierra, few knew it would be the birth of a motoring legend. Through circuit racing and supercar-humbling on-road ability, the 1985 Sierra RS Cosworth quickly became a household name. A practical four-seater boasting 204bhp from its two-litre turbocharged powerplant, the RS Cosworth's massive performance was equalled only by an extroverted rear wing designed for high-speed stability. While motorsport machines scooped innumerable victories and increasingly powerful engines, in 1987 Ford homologated a yet-more-spectacular Sierra - the 224bhp RS500. It instantly became a desirable collector's piece. Other RS Cosworths soon followed. The restrained four-door Sierra Sapphire RS Cosworth of 1988 was Ford's vision of a 150mph executive express; two years later, its four-wheel-drive successor returned the firm to rallying. By 1992, Ford had squeezed the 4x4's running gear into a shorter Escort body, complete with 227bhp engine and ever-more-aggressive aerodynamic aids. The limited-edition Monte Carlo came in 1994, followed by the final RS Cosworth - a revised Escort with smaller turbocharger and user-friendly appeal. Production ceased in 1996. Today, each model has a loyal following among motorsport fans and fast Fords enthusiasts. And as the cars become increasingly sought-after, so too does the pursuit of perfection. This book examines RS Cosworth authenticity, outlining standard specifications alongside in-depth colour photography of outstanding examples of the breed. From body panels and trim to turbochargers and tyres; from interior fabrics and paint schemes to shock absorbers and stickers, Ford's factory-original fitments are covered in comprehensive detail.
