The Galaxy Note 10 isn't just thinner and lighter than the Note 9, but it's one of the most compact phones ever.Samsung built the Galaxy Note brand on delivering the best big-screen phones around. The 6.3-inch Note 10 is one of the most compact big-screen phones yet, thanks to its nearly bezel-free Infinity-O screen - and some features Samsung left on the cutting room floor. For instance, all the phone's buttons are on the left side of the Note 10 plus. Pressing and holding the power button activates Bixby instead of offering power options. So there is a learning curve in getting used to the Note 10 Plus' layout.This complete step-by-step guide will guide you through all the basics and advance tips and tricks to master your device like a pro.
