Writing history can take an author on a journey through time, across the globe and into the lives of others. This book offers great advice to writers, such as: \* how much research is necessary? \* when should you start writing? \* should you structure your work chronologically or thematically? \* how do you write a compelling narrative? Drawing upon the deep experience of two historians who have written many histories themselves, How to Write History that People want to Read explains how to succeed in writing exciting historical narratives. It explores why some historical writing is not so engaging, and why some of it is as good as any writing you will ever read. With many practical tips about how to research and write history in many different genres, Ann Curthoys and Ann McGrath provide moral support and experienced mentoring company for all historians involved in the often-lonely process of researching and writing. Perfect for historians of all levels, this book is an indispensable guide to writing history.

A one-of-a-kind, step-by-step guide to compiling an HSR—a document crucial to every professional working on a historic property. Any architect, engineer, or preservation professional renovating a historic property must be familiar with the historic structure report (HSR)—a document that evaluates all aspects of a property to minimize damage during restoration. The only book of its kind, this practical guide walks readers through the process of compiling an HSR. From gathering historical and archival data about the property to analyzing its structural, mechanical, and electrical components to assessing the state of its interior finish, including wood, masonry, and metals, this book covers all the nuts and bolts of an expertly written, informative HSR. Explaining what information should be

included in each section and how investigators can work together effectively as a team to produce a comprehensive, coherent report, this handbook is one no professional should be without.

Detroit sports a very uneven background. The city dates from 1701, when Antoine de la Mothe Cadillac planted the flag of New France, some 75 years before America became a nation. Almost two-thirds of Detroit's history was spent as little more than a frontier military outpost--home to French farmers and fur traders who shared the quarters with the soldiers. But as the 20th century arrived, the impact of the automobile roused the city from its slumber. Within a century's time, the industry set in motion by Henry Ford produced a skyrocketing population, a diverse mosaic of ethnic groups, and levels of culture and affluence rivaled by few other places. The literature of Joyce Carol Oates, the architecture of Albert Kahn, and the music fostered by Berry Gordy enriched life and created the "Paris of the Midwest." But growing pains were inevitable: growing racial instability culminated in the insurrection of 1967, inflicting deep wounds yet creating new opportunities for harmony and justice that were capitalized on by Rev. William Cunningham. Today, efforts continue to remove the tarnish from this corner of the "Rust Belt."

The Long Day is a wonderfully readable personal narrative of the trials and tribulations of an "unskilled, friendless, almost penniless girl of eighteen, utterly alone in the world" who arrives in New York City in 1905 to earn her livelihood. The book reveals much about the lives of working women in early twentieth-century urban America- the sort of jobs available to women, the ethnic and demographic makeup of the female labor force, the harshness of the conditions, the less-than-satisfactory living arrangements, the physically demanding nature of the work, and the long working hours.

A cloth bag containing 20 paperback copies of the title that may also include a folder with sign out sheets.

As an historiographic monograph, this book offers a detailed survey of the professional evolution and significance of an entire discipline devoted to the history of science. It provides both an intellectual and a social history of the development of the subject from the first such effort written by the ancient Greek author Eudemus in the Fourth Century BC, to the founding of the international journal, *Historia Mathematica*, by Kenneth O. May in the early 1970s.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

Based on Gabriela Pereira's popular website and course, DIY MFA advocates "knowledge without the college" by providing tools and techniques for serious writers. It combines the three main elements of a traditional Masters in Fine Arts--writing, reading, and community--in one easy-to-access, portable book.
