Challenges in

Indian Power

sector Views:

11928. India's

power sector is

one of the key

sectors which

Acces PDF Indian Power

form the
foundation of
the growth of
the country.

Currently,
installed power
capacity of the
country is
around 330,860MW
(331GW - 31st
December 2017)
of which Coal
(193GW - 58.4%),
Gas (25GW -
Page 27/52

Acces PDF Indian Power

7.5%), Hydro
(45GW - 14%) and
rest contributes
around 60GW -
18%.

Presented
During 1991
2001

The other
challenge and
probably the
biggest
challenge in
front of Indian
power sector is
the bad
financial
condition of its
Discoms. The
total losses for

Acces PDF Indian Power

Indian discoms for the year 2017-18 is estimated to be Rs.17,352 crore. One of the main reasons behind these high losses is the high Aggregate Technical & Commercial (AT&C) losses.

challenges in
power sector in
India? How to~~

~~...~~
Compilation Of

Papers
Presented
During 1991-
2001

As per report of
the high-level
Shunglu panel,
net loss of 15
discoms – which
account for over
90 per cent of
country's power
consumption –

Acces PDF Indian Power

after subsidies
was Rs 27,000
crore for the
year ended March
31, 2010.

Another major
issue facing
power sector is
the high

Aggregate
Technical and
Commercial
(AT&C) losses,
which is around

Acces PDF Indian Power

28 per cent .
