## Intuitionistic Fuzzy Multicriteria Group Decision Making

Eventually, you will definitely discover a additional experience and triumph by spending more cash. still when? reach you bow to that you require to get those all needs subsequent to having significantly cash? Why don't you attempt to acquire something basic in the beginning? That's something that will guide you to understand even more approaching the globe, experience, some places, in the same way as history, amusement, and a lot more?

It is your no question own become old to put it on reviewing habit. accompanied by guides you could enjoy now is intuitionistic fuzzy multicriteria group decision making below.

example in intuitionistic fuzzy set Application of Intuitionistic Fuzzy Logic to Decision Making by Dr. Rekha Gupta The Picard group of the stable module category of a finite group—Jesper Grodal Making better decisions in groups Session 3. ## Intuitionistic Fuzzy Multicriteria Group Decision

This study presents a multi-criteria group decision making for evaluation of supplier using intuitionistic fuzzy TOPSIS. Intuitionistic fuzzy sets are suitable way to deal with uncertainty. In the evaluation process, the ratings of each alternative with respect to each criterion and the weights of each criterion were given as linguistic terms characterized by intuitionistic fuzzy numbers.

## A multi-criteria intuitionistic fuzzy group decision ...

In this paper, we propose a new MCGDM approach combining intuitionistic fuzzy sets (IFs) and the Characteristic Object Method (COMET) for solving the group decision making (GDM) problems. The COMET method is resistant to the rank reversal phenomenon, and at the same time it remains relatively simple and intuitive in practical problems.

## Intuitionistic Fuzzy Sets in Multi-Criteria Group Decision ...

The multicriteria intuitionistic fuzzy group decision-making (MCIFGDM) method for sustainability ranking of biofuel production pathways was developed in this section, and the MCIFGDM method was based on the similarity measure.

---

## A multicriteria intuitionistic fuzzy group decision-making ...

Thus, plant location selection problem is a multicriteria decision-making problem involving several conflicting criteria on which decision makers' knowledge is vague and imprecise. Therefore, in this study, the elimination and choice translating reality (ELECTRE) method is proposed with intuitionistic fuzzy sets for selection of appropriate plant location in group decision-making environment to tackle uncertainty of the information provided by decision makers and a plant location ...

---

## A multicriteria intuitionistic fuzzy group decision making ...

An intuitionistic fuzzy multicriteria group decision making method with GRA is given. IFWA operator is utilized to aggregate individual opinions into a group opinion. Intuitionistic fuzzy entropy is used to obtain the entropy weights of the criteria. GRA is applied to the ranking and selection of alternatives. An example

Multicriteria group decision making with ELECTRE III ...

Group decision makings . Abstract. The aim of this paper is to develop a novel approach for multiple attributes group decision making, in which the decision information, provided by multiple decision makers, is presented in the form of interval-valued intuitionistic fuzzy numbers. First, the aggregated information matrix

## The Application of TOPSIS Method to Group Decision Making ...

An effective decision making approach based on VIKOR and Choquet integral is developed to solve multicriteria group decision making problem with conflicting criteria and interdependent subjective preference of decision makers in a fuzzy environment where preferences of decision makers with respect to criteria are represented by interval-valued intuitionistic fuzzy sets.

---

## Interval-Valued Intuitionistic Fuzzy Multicriteria Group ...

In the first case study, the supply chain selection problem investigated by Wei and Wang is used as the benchmark, who also developed a decision making method using intuitionistic trapezoidal fuzzy numbers. In this problem, the alternatives are five suppliers, evaluated according to four criteria: product quality (C 1), service (C 2), delivery (C 3) and price (C 4).

---

## IF-TODIM: An intuitionistic fuzzy TODIM to multi-criteria ...

In Section 5, an approach to intuitionistic fuzzy multi-criteria decision making is given based on the proposed IFHGIA operator. In Section 6, a numerical example is illustrated to show the feasibility and validity of the new approach, and the comparison between the work of this paper and other corresponding works is presented systematically.

Intuitionistic fuzzy geometric interaction averaging ...

Tao Li, Liyuan Zhang and Ziyu Yang. Abstract—During the process of decision making with intuitionistic fuzzy preference relation (IFPR), the underlying normalized intuitionistic fuzzy priority weight vector can be obtained by a mathematical programming model. In the multicriteria group decision making (GDM) problem, it is reasonable to assume that different decision makers have different criteria weights, this is because that each decision maker has his/her own opinions and preferences ...

---

Multi-criteria Group Decision Making Based on the ...

This study aims to propose the concept of intuitionistic fuzzy parameterized intuitionistic fuzzy soft matrices (ifpifs-matrices) and to present several of its basic properties. Therefore, it would be possible to improve the problem-modelling capabilities of the available intuitionistic fuzzy parameterized intuitionistic fuzzy soft sets in the occurrence of a large number of data.
