J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, “ The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the

question of whether the field of archaeology can ever be pursued as a science. ”

Swags are one of the most effective ways to add drama and grace to your windows. Used alone or layered over existing blinds, curtains, or shades, swags can be adapted to any decor. *SWAGS ETC.* shows you how to estimate fabric and give your windows distinctive style with customized swags you make yourself. Every technique is fully explained with careful instructions and clear color photos.

The Leadership of Muhammad is a very personal study of the life-story and leadership skills of the Prophet. John Adair served with a Bedouin regiment in the Arab Legion and this story is full of fascinating detail of desert life and Bedouin beliefs. A business book that crosses boundaries it highlights the key leadership skills displayed by Muhammad and allows you to share in his wisdom. John Adair weaves the story of Muhammad's life together with aspects of Bedouin culture and ancient proverbs to provide key points for leaders and aspiring leaders. He discusses tribal leadership and essential attributes such as integrity, moral authority and humility. Learning and leadership go hand in hand. You are not born a leader, but you can become one and it is never too late to learn. John Adair's study of Muhammad and the tribal tradition of leadership is an essential addition to the leadership debate.

Whereas Volume I of this series investigates the overall structure of children's picture storybooks at the

macro level, this volume, Volume II, investigates the very building blocks of picture storybooks at the micro level: the word, the sentence, the scene and the story. We look at the importance of word choice for giving the story meaning and cohesion. We look at ways to change sentence structure to emphasize the information that is important, and to ensure that sentences flow easily from one to another. We look at the scene: how to begin it, how to end it, and how to create the Beats of action-reaction that make up the scene. And finally we look at the story: what types of problems must a character solve? When does a story introduce a problem? And once a problem is introduced, how do picture storybooks move from problem to solution? What types of solutions do characters find? Is there any part of a story that occurs after the solution is found? To answer these and other questions is to describe storytelling strategies. We look at enduringly popular children's picture storybooks to see what storytelling strategies they employ.

While Henry's parents are at a Sweetheart Dance on Valentine's Day, he and his dog Mudge have a wonderful time staying at Mrs. Hopper's house, where they enjoy tea and music and dressing up in various costumes.
