~~Stenosis:~~

~~9781597565509 ...~~

Abstract. Forty-five infants and children with intrathoracic tracheobronchial obstructions requiring surgical treatment are reported. Segmental stenosis of the trachea is defined as involvement of less than one half the length of the airway,

Online Library

Laryngeal And

Tracheobronchial stenosis which affected six infants. Elongated stenosis involving more than one half the length of the trachea was seen in 12 infants, and complete annular cartilage rings, along the entire length of the trachea, were present in 11.
