Replacing conveniently manufactured myths with surprising and enlightening research, Jonah Goldberg reminds us that the original fascists were really on the left, and that liberals from Woodrow Wilson to FDR to Hillary Clinton have advocated policies and principles remarkably similar to those of Hitler's National Socialism and Mussolini's Fascism.****

Liberal Fascism: The Secret History of the American Left ...

From Roger Griffin: Even if it purports to be (i.e. masquerades as) a thoroughly researched 'alternative' or 'secret' analysis and history of fascism, Liberal Fascism is to the trained eye a patent exercise in propaganda. Even 'polemics' is a euphemism here, implying a provocation to heated debate rather than the attempt to pass off an Ersatz for the real thing.

Liberal Fascism: The Secret History of the American Left ...

If you haven't read Jonah Goldberg's Liberal Fascism: The Secret History of the American Left, From Mussolini to the Politics of Meaning, I'd highly recommend it. Although it's not as witty as Goldberg's columns, it's a well researched, incredibly important book that will change the way you view fascism, Nazism, and liberalism.

Draws parallels between the fascism of the 1930s and the liberalism of the present, arguing that liberal politicians from Woodrow Wilson to Hillary Clinton have espoused policies and principles similar to those of Hitler's National Socialism.

"Fascists," "Brownshirts," "jackbooted stormtroopers"--such are the insults typically hurled at conservatives by their liberal opponents. Calling someone a fascist is the fastest way to shut them up, defining their views as beyond the political pale. But who are the real fascists in our midst? Liberal Fascism offers a startling new perspective on the theories and practices that define fascist politics. Replacing conveniently manufactured myths with surprising and enlightening research, Jonah Goldberg reminds us that the original fascists were really on the left, and that liberals from Woodrow Wilson to FDR to Hillary Clinton have advocated policies and principles remarkably similar to those of Hitler's National Socialism and Mussolini's Fascism. Contrary to what most people think, the Nazis were ardent socialists (hence the term "National socialism"). They believed in free health care and guaranteed jobs. They confiscated inherited wealth and spent vast sums on public education. They purged the church from public policy, promoted a new form of pagan spirituality, and inserted the authority of the state into every nook and cranny of daily life. The Nazis declared war on smoking, supported abortion, euthanasia, and gun control. They loathed the free market, provided generous pensions for the elderly, and maintained a strict racial quota system in their universities--where campus speech codes were all the rage. The Nazis led the world in organic farming and alternative medicine. Hitler was a strict vegetarian, and Himmler was an animal rights activist. Do these striking parallels mean that today's liberals are genocidal maniacs, intent on conquering the world and imposing a new racial order? Not at all. Yet it is hard to deny that modern progressivism and classical fascism shared the same intellectual roots. We often forget, for example, that Mussolini and Hitler had many admirers in the United States. W.E.B. Du Bois was inspired by Hitler's Germany, and Irving Berlin praised Mussolini in song. Many fascist tenets were espoused by American progressives like John Dewey and Woodrow Wilson, and FDR incorporated fascist policies in the New Deal. Fascism was an international movement that appeared in different forms in different countries, depending on the vagaries of national culture and temperament. In Germany, fascism appeared as genocidal racist nationalism. In America, it took a "friendlier," more liberal form. The modern heirs of this "friendly fascist" tradition include the New York Times, the Democratic Party, the Ivy League professoriate, and the liberals of Hollywood. The quintessential Liberal Fascist isn't an SS storm trooper; it is a female grade school teacher with an education degree from Brown or Swarthmore. These assertions may sound strange to modern ears, but that is because we have forgotten what fascism is. In this angry, funny, smart, contentious book, Jonah Goldberg turns our preconceptions inside out and shows us the true meaning of Liberal Fascism.

Today the word 'fascist' is usually an insult aimed at those on the right, from necons to big business. But what does it really mean? What if the true heirs to fascism were actually those who thought of themselves as being terribly nice and progressive - the liberals? Jonah Goldberg's excoriating, opinion-driving, US bestseller explains why. Here he destroys long-held myths to reveal why the most insidious attempts to control our lives originate from the left, whether it's smoking bans or security cameras. Journeying through history and across culture, he uses surprising examples ranging from Woodrow Wilson's police state to the Clinton personality cult, the military chic of 60s' student radicals to Hollywood's totalitarian aesthetics, to show that it is modern progressivism - and not conservatism - that shares the same intellectual roots as fascism. This angry, funny, smart and contentious book looks behind the friendly face of the well-meaning liberal, and turns our preconceptions inside out.

Today the word 'fascist' is usually an insult aimed at those on the right, from necons to big business. But what does it really mean? What if the true heirs to fascism were actually those who thought of themselves as being terribly nice and progressive - the liberals? The Pulitzer Prize-nominated author of Liberal Fascism argues that today's liberal leaders, academics and journalists pursue distinctly ideological agendas in spite of claims that they oppose ideology, revealing the hidden radical sentiments behind some of today's seemingly objective political pursuits. Reprint.

PULITZER PRIZE WINNER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO CHRONICLE From National Book Award finalist David I. Kertzer comes the gripping story of Pope Pius XI's secret relations with Italian dictator Benito Mussolini. This groundbreaking work, based on seven years of research in the Vatican and Fascist archives, including reports from Mussolini's spies inside the highest levels of the Church, will forever change our understanding of the Vatican's role in the rise of Fascism in Europe. The Pope and Mussolini tells the story of two men who came to power in 1922, and together changed the course of twentieth-century history. In most respects, they could not have been more different. One was scholarly and devout, the other toughish and profane. Yet Pius XI and "Il Duce" had many things in common. They shared a distrust of democracy and a visceral hatred of Communism. Both were prone to sudden fits of temper and were fiercely protective of the prerogatives of their office. ("We have many interests to protect," the Pope declared, soon after Mussolini seized control of the government in 1922.) Each relied on the other to consolidate his power and achieve his political goals. In a challenge to the conventional history of this period, in which a heroic Church does battle with the Fascist regime, Kertzer shows how Pius XI played a crucial role in making Mussolini's dictatorship possible and keeping him in power. In exchange for Vatican support, Mussolini restored many of the privileges the Church had lost and gave in to the pope's demands that the police enforce Catholic morality. Yet in the last years of his life--as the Italian dictator grew ever closer to Hitler--the pontiff's faith in this treacherous bargain started to waver. With his health failing, he began to lash out at the Duce and threatened to denounce Mussolini's anti-Semitic racial laws before it was too late. Horrified by the threat to the Church-Fascist alliance, the Vatican's inner circle, including the future Pope Pius XII, struggled to restrain the headstrong pope from destroying a partnership that had served both the Church and the dictator for many years. The Pope and Mussolini brims with memorable portraits of the men who helped enable the reign of Fascism in Italy: Father Pietro Tacchi Venturi, Pius's personal emissary to the dictator, a wily anti-Semite known as Mussolini's Rasputin; Victor Emmanuel III, the king of Italy, an object of widespread derision who lacked the stature--literally and figuratively--to stand up to the domineering Duce; and Cardinal Secretary of State Eugenio Pacelli, whose political skills and ambition made him Mussolini's most powerful ally inside the Vatican, and positioned him to succeed the pontiff as the controversial Pius XII, whose actions during World War II would be subject for debate for decades to come. With the recent opening of the Vatican archives covering Pius XI's papacy, the full story of the Pope's complex relationship with his Fascist partner can finally be told. Vivid, dramatic, with surprises at every turn, The Pope and Mussolini is history writ large and with the lightning hand of truth.

NEW YORK TIMES BESTSELLER • An urgent argument that America and other democracies are in peril because they have lost the will to defend the values and institutions that sustain freedom and prosperity. "Epic and debate-shifting."--David Brooks, New York Times Only once in the last 250,000 years have humans stumbled upon a way to lift ourselves out of the endless cycle of poverty, hunger, and war that defines most of history. If democracy, individualism, and the free market were humankind's destiny, they should have appeared and taken hold a bit earlier in the evolutionary record. The emergence of freedom and prosperity was nothing short of a miracle. As Americans we are doubly blessed, because the radical ideas that made the miracle possible were written not just into the Constitution but in our hearts, laying the groundwork for our uniquely prosperous society. Those ideas are: • Our rights come from God, not from the government. • The government belongs to us; we do not belong to it. • The individual is sovereign. We are all captains of our own souls, not bound by the circumstances of our birth. • The fruits of our labors belong to us. In the last few decades, these political virtues have been turned into vices. As we are increasingly taught to view our traditions as a system of oppression, exploitation, and privilege, the principles of liberty and the rule of law are under attack from left and right. For the West to survive, we must renew our sense of gratitude for what our civilization has given us and rediscover the ideals and habits of the heart that led us out of the bloody muck of the past--or back to the muck we will go.

A look at corporate authoritarianism that William Shirer called "the best thing I've ever seen on how America might go fascist democratically." In 1980, US capitalist politics wore a "nice-guy mask," a troubling disguise to cover up a creeping despotism in which the ultra-rich and corporate overseers were merging with a centralized state power in order to manage the populace. This immanent corporate authoritarianism threatened to subvert constitutional democracy. But unlike the violent and sudden usurpations that led to fascism in the days of Hitler, Mussolini, and the Japanese empire builders, this new "smiling" American breed of fascism was gaining ground through gradual and silent infringements on the freedoms of the American people. First published over three decades ago, Friendly Fascism is uncannily predictive of the threats and realities of current political and economic power trends. Author Bertram Gross, a presidential adviser during the New Deal era, traces the history and logic of declining democracy in First World countries and pinpoints capitalist transnational growth and inappropriate responses to global crises as the sources of late twentieth-century despotism in America. Gross issues ever-urgent warnings about what happens when big business and big government become bedfellows--chronic inflation, recurring recession, overt and hidden unemployment, the poisoning of the environment--and simultaneously proffers a practical shift of perspective that could help US citizens build a truer democracy. He imagines an America in which heroes are no longer needed and the leadership is a group of non-elitists who "recognize the ignorance of the wise as well as the wisdom of the ignorant."

Tolerance is a defining feature of liberal Western democracy and something that most of us value deeply. We are glad, even grateful, to live in a society where for the most part people are tolerant towards one another, certainly in comparison to many other parts of the world. However, this tolerance is increasingly under threat from the most unlikely of sources - liberalism. This has morphed from a political philosophy that assumes the right to differ, into a form of fascism that seeks to impose conformity, crush dissent and stifle freedom of expression. Given the dominance of liberalism in the West, this poses a very real danger to the health of society and the future of democracy. The purpose of this book is to examine what we mean by tolerance, to show that the increasing diversity of Western society makes it more difficult to find shared values and define the boundaries of tolerance and to demonstrate that the widely held belief that liberals are fundamentally tolerant is a myth. We will then propose a 'tolerance model', the aim of which is to provide a framework that will allow Western society to continue to be open and tolerant, whilst defending its fundamental values.
