It was from her experience in several of her cases that she felt compelled to write LICENSED TO LIE: Exposing Corruption in the Department of Justice after seeing a core group of federal prosecutors break all the rules, make up crimes, hide evidence, and send innocent people to prison. The book reads like a legal thriller, but it names the prosecutors who then rose to positions of great power and the judges who turned a blind eye to their abuses of unfettered power.

This true legal thriller debunks everything the media and the government told us about the Department of Justice's destruction and prosecution of the venerable accounting firm Arthur Andersen, Merrill Lynch executives who did one business transaction with Enron, Alaska Senator Ted Steven's, and more. The common thread through it all is a cabal of narcissistic federal prosecutors who broke all the rules and rose to great power. Still in the news today--Robert Mueller's "pitbull" Andrew Weissmann and other members of Obama's inner circle--are wreaking havoc on our Republic. This is the book that began exposing "the Deep State."

In 2009, Harvey A. Silverglate, a prominent criminal defense and civil liberties lawyer, published his landmark critique of the federal criminal justice system, Three Felonies a Day: How the Feds Target the Innocent. In 2014, Sidney Powell, a former federal prosecutor in three districts under nine United States Attorneys from both political parties and who has been lead counsel in 500 federal appeals, published her landmark indictment of the system, Licensed To Lie: Exposing Corruption in the Department of Justice, after she witnessed appalling abuses by prosecutors—more than a decade after she entered private practice. Now these two leading authorities have combined their knowledge, experiences, and talents to produce a much-needed and long-awaited blueprint for reforming the way business is conducted within the Department of Justice and in the federal criminal courts. Both Powell and Silverglate decided to join forces to write this essential and long-awaited book in order to answer the questions and the challenges that each of them has faced over the past several years: "OK," they ' ve been told. "We understand your criticisms. Now how about telling us what has to be done to restore justice to federal criminal justice." This collaboration is their response.

This is a new release of the original 1949 edition.

Reveals how federal criminal laws have become dangerously disconnected from the English common law tradition and how prosecutors can pin arguable federal crimes on any citizen of any social class or profession, for even the most seemingly innocuous behavior.

Foreign aid is about charity. International development is about technical fixes. At least that is what we, as donor publics, are constantly told. The result is a highly dysfunctional aid system which mistakes short-term results for long-term transformation and gets attacked across the political spectrum, with the right claiming we spend too much, and the left that we don't spend enough. The reality, as Yanguas argues in this highly provocative book, is that aid isn't – or at least shouldn't be – about levels of spending, nor interventions shackled to vague notions of 'accountability' and 'ownership'. Instead, a different approach is possible, one that acknowledges aid as being about struggle, about taking sides, about politics. It is an approach that has been quietly applied by innovative development practitioners around the world, providing political coverage for local reformers to open up spaces for change. Drawing on a variety of convention-defying stories from a variety of countries – from Britain to the US, Sierra Leone to Honduras – Yanguas provides an eye-opening account of what we really mean when we talk about aid.

In the summer of 2009 the blog Gawker stated "Everybody in New Jersey Was Arrested Yesterday." Now for the first time, the real story behind the biggest corruption bust in New Jersey's notoriously corrupt history Among the forty-four people arrested in July 2009 were three mayors, five Orthodox rabbis, two state legislators, and the flamboyant deputy mayor of Jersey City, Leona Beldini, once a stripper using the stage name "Hope Diamond." At the center of it all was a dubious character named Solomon Dwek, who perpetrated a \$50 million Ponzi scheme before copping a plea and wearing a wire as a secret FBI undercover informant, setting up friends, partners, rabbis, and dozens of politicians. Mr. Dwek played his role like an extra in a mob movie. On surveillance tape, he repeatedly referred to his fraudulent "schnooke deals," which is Yiddish for, well, schnook. Full of impossible-to-make-up detail and fresh revelations from the continuing trials and investigations, this book—the inside, untold account of a federal sting operation that moves from the streets of Brooklyn to the diners of Jersey City, and all the way to Israel—is a wonderful tour de force of investigative journalism by the reporting team that broke this amazing story.

An MSNBC political analyst and former Hillary Clinton staffer examines the past and present problems of the Left—and makes a compelling case for how to take back our government and secure a better future for America. In the entire history of the United States of America, we've never elected a woman as our president. And we've only had one president who was not a white man. After working on two presidential campaigns (for Barack Obama and Hillary Clinton), MSNBC political analyst and SiriusXM host Zerlina Maxwell gained first-hand knowledge of everything liberals have been doing right over the past few elections-and everything they are still doing wrong. Ultimately, these errors worked in President Donald Trump's favor in 2016: he effectively ran a campaign on white identity politics, successfully tapping into white male angst and resistance. In 2020, after the Democratic Party's most historically diverse pool of presidential candidates finally dwindled down to Joe Biden, once again an older white man, Maxwell has posed the ultimate question: what now, liberals? Fueled by Maxwell's trademark wit and candor, The End of White Politics dismantles the past and present problems of the Left, challenging everyone from scrappy, young "Bernie Bros" to seasoned power players in the "Billionaire Boys' Club." No topic is taboo: whether tackling the white privilege that enabled Mayor Pete Buttigieg's presidential run, the controversial #HashtagActivism of the Millennial generation, the massive individual donations that sway politicians toward maintaining the status quo of income inequality, or the lingering racism that debilitated some Democratic presidential contenders and cut their promising campaigns short, Maxwell pulls no punches in her fierce critique. However, underlying all of these individual issues, Maxwell argues that it's the "liberal-minded" party's struggle to engage women and communities of color-and its preoccupation with catering to the white, male working class—that threatens to be its most lethal shortfall. The times—and the demographics—are changing, and in order for progressive politics to prevail, we must acknowledge our shortcomings, take ownership of our flaws, and do everything in our power to level the playing field for all Americans. The End of White Politics shows exactly how and why progressives can lean into identity politics, empowering marginalized groups, and uniting under a common vision that will benefit us all. ***TIME, 100 Must-Read Books of 2020!*** "Witty and piercing." —TIME

The Constitution of the Commonwealth of Australia examines the body of constitutional jurisprudence in an original and rigorous yet accessible way. It begins by exploring the historical and intellectual context of ideas surrounding the Constitution's inception, and closely examines its text, structure, principles and purposes in that light. The book then unpacks and critically analyses the High Court's interpretation of the Constitution in a manner that follows the Constitution's own logic and method of organisation. Each topic is defined through detailed reference to the existing case law, which is set out historically to facilitate an appreciation of the progressive development of constitutional doctrine since the Constitution came into force in 1901. The Constitution of the Commonwealth of Australia provides an engaging and distinctive treatment of this fundamental area of law. It is an excellent book for anyone seeking to understand the significance and interpretation of the Constitution.

In this "spellbinding memoir" (The Washington Post), a private investigator revisits the case that has haunted her for decades and sets out on a deeply personal quest to sort truth from lies. "Beautifully written." —Heather Ann Thompson, Pulitzer Prize–winning author of Blood in the Water In 1990, Ellen McGarrahan was a young reporter for the Miami Herald when she covered the execution of Jesse Tafero, a man convicted of murdering two police officers. When it later emerged that Tafero may have been innocent, McGarrahan was appalled by her unquestioning acceptance of the state ' s version of events. The revelation propelled her into a new career as a private investigator. Decades later, McGarrahan finally decides to find out the truth of what really happened in Florida. Her investigation plunges her back into the Miami of the 1960s and 1970s, a dangerous world of nightclubs, speed boats, and cartels, all awash in violence. She combs through stacks of court files and interviews everyone involved in the case. But even as McGarrahan circles closer to the truth, the story of guilt and innocence becomes more complex, and she gradually discovers that she hasn ' t been alone in her need for closure. Because whenever a human life is forcibly taken—by bullet, or by electric chair—the reckoning is long and difficult for all. A fascinating glimpse into the mind of a private investigator, Two Truths and a Lie is ultimately a deeply personal exploration of one woman ' s quest to find answers in a chaotic world.
