Many lamps have light-sensitive photocells that activate the lamp automatically when needed, at times when there is little to no ambient light, such as at dusk, dawn, or at the onset of dark weather conditions. This function in older lighting systems could be performed with the aid of a solar dial. Many

the title of the book is

itself very apt. It is

indeed a light from

many lamps. Great

source of

inspiration, something

that can give you hope

and encouragement. It's

very rare that you find

such a great collection

of thoughts and words

of wisdom from great

men n women in one

book. This is a must
