I just got the Luxman 5C50 form a friend and got new DM-02 units installed. Everything worked fine for about 3 months. Now it just happens to be very unstable. Sometimes the regulated +30V supply goes crazy, looks like a short circuit somewhere but the fault is intermittent. I tried to disconnect the phono section and at first I got the unit to work but when it cooled down I got that fault ...

5C50 : preamplifier 160k ... Luxman would produce many other lineups bearing the Laboratory or Reference tags (or both, or anything in between) but this was the original, still under sole Luxman ownership. Depending on country, most of these components remained available well into the 1980s and sold very well - except the eq, meter and tone units, previsibly. None of these saw equivalents in ...
