This classic textbook has provided students of medical law and ethics with a framework for exploring this fascinating subject for over 30 years. Providing coverage of all of the topics found on medical law courses, it gives an overview of the inter-relationship between ethical medical practice and the law. Medical law is significantly shaped by the courts, and as such this book provides extensive coverage of recent judicial decisions as well as statutory developments. This book has continually evolved to reflect changes in the law and shifting ethical opinions and the tenth edition continues to fulfil this remit.

This classic textbook focuses on medical law and its relationship with medical practice and modern ethics. It provides thorough coverage of all of the topics found on medical law courses, and in depth analysis of recent court decisions, encouraging students to think analytically about the subject.

This work deals with the continuing debate between doctors, lawyers and medical ethicists regarding the provision of modern health care. It offers a wide-ranging treatment of medical law and examines the many ethical issues which beset medicine today. This new edition has been revised and expanded to reflect current debates, including an increase in the coverage of the treatment of transsexualism, additional material on the criminal responsibility of doctors and coverage of persistent vegetative state cases. Written in a clear, concise style, the book offers a broad overview of medical law and its interaction with medical ethics. Both authors are leading authorities in their respective fields and provide the reader with an analysis of ethical concepts based on positive legal principles and court decisions, describing what actually happens in practice rather than what should happen, in this important field.

This book uses the insights of psychology to find out why accidents occur.

This is an analysis of medical ethical concepts based on legal principles and court decisions, describing what actually happens in practice rather than what should happen and, where there are no precedents available, what is most likely to happen.

Medicine, Patients and the Law is a leading book in its field, aimed at practitioners and students of both law and medicine, as well as the general reader. It examines the regulation of medical practice, the rights and duties of patients and their medical advisers, the provision of compensation for medical mishaps and the framework of rules governing those delicate issues of life and death where medicine, morals and the law overlap. The fifth edition of this highly acclaimed book is fully updated to cover recent changes in law and medical practice. Clear explanations of legal issues make this book accessible and absorbing.

Medical law and ethics are frequently referred to in conjunction, and appear together in many textbooks. But do they combine to form a cohesive unit, and do they benefit each other? It may be argued that they do not, but rather suffer a symbiotic relationship, clashing rather than cooperating. This book examines this relationship, and how the law sees medical ethics. It then considers whether medical ethics functions in the way that the law thinks that it does. After providing a historical perspective that identifies medical ethics discourse as disjointed and fragmented, the book continues by examining key medico-legal case law and reports that have an inherent ethical content for clues as to how they define medical ethics and its role. It also considers how medical ethics sees the law, concluding that a misapprehension by each party as to what the other does creates a mutually harmful relationship between them.

THE NO. 1 LADIES' DETECTIVE AGENCY - Book 13 Fans around the world adore the best-selling No. 1 Ladies' Detective Agency series and its proprietor, Precious Ramotswe, Botswana's premier lady detective. In this charming series, Mma Ramotswe—with help from her loyal associate, Grace Makutsi—navigates her cases and her personal life with wisdom, good humor, and the occasional cup of tea. Precious Ramotswe is haunted by a repeated dream: a vision of a tall, strange man who waits for her beneath an acacia tree. Odd as this is, she's far too busy to worry about it. The best apprentice at Tlokweng Road Speedy Motors is in trouble with the law and stuck with the worst lawyer in Gaborone. Grace Makutsi and Phuti Radiphuti are building the house of their dreams, but their builder is not completely on the up and up. And, most shockingly, Mma Potokwane, defender of Botswana's weak and downtrodden, has been dismissed from her post as matron at the orphan farm. Can the No. 1 Ladies' Detective Agency help restore the beloved matron to her rightful position? As wealthy and powerful influences at the orphan farm become allied against their friend, help arrives from an unexpected visitor: the tall stranger from Mma Ramotswe's dreams, who turns out to be none other than the estimable Clovis Andersen, author of the No. 1 Ladies' prized manual, The Principles of Private Detection. Together, Mma Ramotswe, Mma Makutsi, and their teacher-turned-colleague help right this injustice and in the process discover something new about being a good detective.
