MATH 108. Intermediate Algebra. Reviews number sense, fundamental concepts of algebra, including rules for expressions and equations, linear and quadratic equations, relations and functions, integer exponents, radicals, and systems of equations. Prerequisite: two years of college preparatory mathematics in high school or equivalent. Not open to students who have credit in MATH courses numbered higher than 108 except MATH 125 .

MATH108 - Ball State University - Ball State University
Description. This course provides development of algebraic concepts beyond MATH-025 or first year high school algebra. Students will be able to apply principles of linear, quadratic, and rational equations, radicals, circles and parabolas, complex numbers, functions, exponents, and logarithms. MATH-108 develops skills necessary for success in algebra-based, college-level math courses.

Intermediate Algebra > Syllabus | Concourse
MATH-108 Intermediate Algebra Credit(s): 4 This course provides development of algebraic concepts beyond MATH-025 or first year high school algebra. Students will be able to apply principles of linear, quadratic, and rational equations, radicals, circles and parabolas, complex numbers, functions, exponents, and logarithms.

Course Descriptions - Mathematics
This course is remedial in nature and covers material commonly found in second year high school algebra. Specific topics to be discussed include numbers, fractions, algebraic expressions, simplifying, factoring, laws of exponents, linear equations, simple graphs and polynomial algebra.
