Math in Focus mirrors the original Singapore Math's layout with books A and B for each level for Teacher's Editions, student textbooks, and student workbooks, essentially splitting the course for each level into two parts. Kindergarten is the exception to this layout since it has only workbooks rather than separate texts and workbooks; there are four of these relatively thin kindergarten student workbooks.

Data shows that Singapore is a leader in math education and testing. I highly recommend for every teacher. I also recommend the student text book, the workbook and the assessment book. Outstanding pictorial method of teaching math to visual learners. Unlike some text books the scope and sequence is superb. I recommend all books in this series for a good math foundation and increase math scores. Dr. Charles Watson Smith Jr.
