The 2nd generation, which includes the R55, R56, R57, R58, R59, R60 and R61 of the MINI range was a completely new development from the ground up. Aside from door handles, rear view mirrors, pedals, emblems and few other bits there are very few parts that are interchangeable between gen1 and gen2 models.

With the second generation MINI, BMW had things planned out a bit better. That meant the
entire range of 2nd generation coupes would use the R56 code and the convertibles R57. The
Clubman was designated R55 since initial work had started on the concept before the R56. So
why the big gap between the R57 and the new R60 SUV MINI?
