According to reports, the next-gen Suzuki Vitara will be bigger than the existing model, which measures 4,175 mm in length, 1,775 mm in width and 1,610 mm in height. The new one is expected to be 4,200 mm long, 1,780 mm wide and 1,620 mm tall. It might retain the 2,500 mm wheelbase while the platform it will sit on, will likely be a revised version of that of its predecessor's.

Our Model. Next Gen partners with under-resourced high schools to create student cohorts, led by teachers and mentored by college students, to connect student interests to the world, visit local colleges and companies, and execute a plan for success after high school – College and Career. Our program targets “quiet middle” students who are often passed over for enrichment opportunities, not involved in extracurricular activities, or students in need of tier one supports as identified ...
