The Narcissistic Wound | Psychology Today

Narcissistic rage is a psychological construct that describes a reaction to narcissistic injury, which is conceptualized as a perceived threat to a narcissist's self-esteem or self-worth. Narcissistic injury is a phrase used by Sigmund Freud in the 1920s; narcissistic wound and narcissistic blow are further, almost interchangeable terms. The term narcissistic rage was coined by Heinz Kohut in 1972. The model underlying the construct suggests that narcissistic injury occurs when a narcissist feel

Narcissistic rage and narcissistic injury - Wikipedia

As described by Dr. Jane Petersen in her article " Healing the Narcissistic Wound " : The child who externalizes their experience perpetuates the pattern by projecting onto others the shame, guilt, humiliation and fear that she experienced and cannot tolerate herself. Narcissistic behavior can be internalized as well. In these cases,
