Presents a history of sports cars from the earliest models, to the hot rods of the 1950s and 1960s, to contemporary styles

The UN-supported Principles for Responsible Investment initiative has led to around a third of the world's financial assets being managed with a commitment to invest

in a way that considers environmental, social or governance (ESG) criteria. The responsible investment trend has increased dramatically since the global financial crisis, yet understanding of this field remains at an early stage. This handbook provides an atlas of current practice in the field of responsible investment. With a large global team of expert contributors, the book explores the impact of responsible investment on key financial actors ranging from mainstream asset managers to religious organizations. Offering students and researchers a comprehensive introduction to current scholarship and international structures in the expanding discipline of responsible investment, this handbook is vital reading across the fields of finance, economics and accounting.

A maintenance and repair manual for the DIY mechanic.

The complete history of the groundbreaking sportscar that opened up export markets for the Japanese - particularly in America. Covered are all the FairLady (Datsun 1600/2000 roadster) sportscars, through 240Z, 260Z and 280Z.
