Cold reading can be loosely defined as 'how to talk to people so you sound psychic'. This is the definitive guide to how cold reading is used in the psychic industry. It systematically describes a wide range of techniques that enable those who give readings to make seemingly accurate statements to a complete stranger. These statements can refer to past, current or future events or to the client's personality, feelings and potential. This is primarily a descriptive book, not an instructional one. It's primary aim is to describe cold reading techniques rather than to teach anyone how to use them or how to give readings.

Michael Dudit, executive editor of Preaching Magazine, writes in the foreword that "the reader will find in this book a valuable discussion of what persuasion really is, what the Bible has to say about it, how it is modeled in the New Testament, and what role persuasion should and should not play in our own preaching in the twenty-first century. The author has provided solid biblical content and practical guidance that will be a powerful resource for preachers and church leaders. He writes with clarity and--dare I say it?--persuasive power. I hope you will be as blessed by this book as I have been."
