A guide to understanding, teaching, and preaching the Word of God.Includes reproducible exegesis work sheets for contextual, cultural, structural, verbal, theological, and homiletical analyses.

We humans have the world that is tangible, physical, and carnal. We also have the spirit, which is thought, mind, and soul. What do the world and spirit have to do with the past, present, and future? The world (flesh) and spirit are always fighting against each other in our minds, fighting for the Word in a battle to control our thoughts. This book is not about the author, but it did come through the author from God. The God's New Covenant brought forth a new concept of living, a new belief and a new thought process that invites us to live in His presence. The author wants you to know that if God could use him to come into the world, he can use anyone—even you.

The study of the growth of early Christian intellectual life is of perennial interest to scholars. This volume advances discussion by exploring ways in which Christian writers in the second century did not so much draw on Hellenistic intellectual traditions and models, as they were inevitably embedded in those traditions. The volume contains papers from a seminar in Rome in 2016 that explored the nature and activity of the emergent Christian intellectual between the late first century and the early third century. The papers show that Hellenistic scholarly cultures were the milieu within which Christian modes of thinking developed. At the same time the essays show how Christian thinkers made use of the cultures of which they were part in distinctive ways, adapting existing traditions because of Christian beliefs and needs. The figures studied include Papias from the early part of the second-century, Tatian, Irenaeus, and Clement of Alexandria from the later second century. One paper on Eusebius of Caesarea explores the Christian adaptation of Hellenistic scholarly methods of commentary. Christian figures are studied in the light of debates within Classics and Jewish studies.

The objective of "The Sacred Scriptures" by John Biermanski, 29th edition - "Special Edition," also written in German, is to revoke all falsifications in today's Bibles known so far (the New Testament), and to restore the original state of the verses as far as possible. In the present work, you will find the holy and true name of the living Elohim/G-d "YAHWEH" (the Elohim/G-d of Abraham, the Elohim/G-d of Isaac and the Elohim/G-d of Jacob), of the children of Israel (Exodus 3:15), to his glory in this edition, and "The New Covenant ~ The New Testament", "The Book of Psalms" and "The Book of Daniel", in which all verses are written in German and English with "Appendix" in English (see the "Table of Contents"). In this part is: "THE BOOK OF REVELATION" and also the very important "APPENDIX" for example "Note about Daniel, Chapter 7, Verses 21-28" and the work of the English Reformers, etc. The author was born in 1963 in North Rhine-Westphalia and completed a traineeship for wholesale and foreign trade in a pharmaceutical wholesale company. In the course of his professional development, he used to be a freelancer but was also officially employed; he has experienced a lot rises and falls throughout his life. While studying the Scriptures, he was led by the Spirit of the only God, the Almighty and the only Holy Father in heaven, whereas, by grace, he could recognize many things that are now presented as heresies to the world. In recent years he has been active in the proclamation of the Word of God in Europe, particularly in Brazil (South America), and has enlightened many people by his message, so that they get to know the true God, His holy name and His will and only obey Him - and start to think about all this, i. e. "so that they finally decide themselves in favour of the living God, instead of against Him, and their names are not erased from the divine 'Book of Life' forever."
