Minimalist design--maximum style! In the middle of the last century, a new generation of designers sought to render furniture to its most essential forms. In doing so, they created timeless designs that defined Mid-Century Modern Style. From the sleek geometric lines of Bauhaus-inspired design to the sculptural shapes of Danish masters, this furniture captured the imagination of the era and enjoys growing popularity today. Now for the first time, author Michael Crow has carefully detailed 29 seminal works by the era's foremost designers, including Hans Wenger, Finn Juhl and George Nelson. At their best, these spare, often sculptural designs transcend their period and are at home in a variety of settings. Each piece has been selected carefully so it can be built in an average workshop. Inside this book you'll find:

- More than 100 drawings with exploded views, elevations and details for projects to fit every room in your house.
- Practical advice on wood selection, hardware sources and construction and finishing techniques.
- Two step-by-step project builds.
- A richly illustrated historical overview tracing the evolution of the style and exploring the designers and makers who shaped it.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Spectrum Math for grade 7 keeps kids at the top of their math game using progressive practice, math in everyday settings, and tests to monitor progress. The math workbook covers algebra, geometry, statistics, proportions, ratios, and more. A best-selling series for well over 15 years, Spectrum still leads the way because it works. It works for parents who want to give their child a leg up in math. It works for teachers who want their students to meet—and surpass—learning goals. And it works to help children build confidence and advance their skills. No matter what subject or grade, Spectrum provides thorough practice and focused instruction to support student success.

Morie Sawataishi lives a life that is radically unconventional by any standard but almost absurd in blatantly conformist Japan. Journalist Martha Sherrill provides a profound look at what it takes to be an individualist in a culture where rebels are rare.

Fascinating narrative science that explores the next frontier in medicine and genetics through the very personal prism of the children and families gene therapy has touched. Eight-year-old Corey Haas was nearly blind from a hereditary disorder when his sight was restored through a delicate procedure that made medical history. Like something from a science fiction novel, doctors carefully injected viruses bearing healing genes into the DNA of Corey's eyes—a few days later, Corey could see, his sight restored by gene therapy. THE FOREVER FIX is the first book to tell the fascinating story of gene therapy: how it works, the science behind it, how patients (mostly children) have been helped and harmed, and how scientists learned from each trial to get one step closer to its immense promise, the promise of a "forever fix," - a cure that, by fixing problems at their genetic root, does not need further surgery or medication. Told through the voices of the children and families who have been the inspiration, experimental subjects, and successes of genetic science, THE FOREVER FIX is compelling and engaging narrative science that tells explores the future of medicine as well as the families and scientists who are breaking new ground every day.

Fans of Alice Sebold and John Green will be transfixed by this sophisticated, edgy debut novel packing dark humor, biting wit, and a lot of Jack Daniels. Who put the word fun in funeral? I can't think of anything fun about Rachel's funeral, except for the fact that she won't be there. Aubrey Glass has a collection of potential suicide notes—just in case. And now, five years—and five notes—after leaving her hometown, Rachel's the one who goes and kills herself. Aubrey can't believe her luck. But Rachel's death doesn't leave Aubrey in peace. There's a voicemail from her former friend, left only days before her death, that Aubrey can't bring herself to listen to—and worse, a macabre memorial-turned-high-school reunion that promises the opportunity to catch up with everyone . . . including the man responsible for everything that went wrong between Aubrey and Rachel. In the days leading up to the

funeral and infamous after party, Aubrey slips seamlessly between her past and present. Memories of friendship tangle with painful new encounters while underneath it all Aubrey feels the rush of something closing in, something she can no longer run from. And when the past and present collide in one devastating night, nothing will be the same again. But facing the future means confronting herself and a shattering truth. Now, Aubrey must decide what will define her: what lies behind . . . or what waits ahead.

This comprehensive guide to the history of literary criticism from antiquity to the present day provides an authoritative overview of the major movements, figures, and texts of literary criticism, as well as surveying their cultural, historical, and philosophical contexts. Supplies the cultural, historical and philosophical background to the literary criticism of each era Enables students to see the development of literary criticism in context Organised chronologically, from classical literary criticism through to deconstruction Considers a wide range of thinkers and events from the French Revolution to Freud's views on civilization Can be used alongside any anthology of literary criticism or as a coherent stand-alone introduction

"Lars Eighner is the Thoreau of the Dumpsters. Comparisons to Defoe's Robinson Crusoe and Hamsun's Hunger leap to mind. A classic of down-and-out literature." —Phillip Lopate When *Travels with Lizbeth* was first published in 1993, it was proclaimed an instant classic. Lars Eighner's account of his descent into homelessness and his adventures on the streets has moved, charmed, and amused generations of readers. As Lars wrote, "When I began writing this account I was living under a shower curtain in a stand of bamboo in a public park. I did not undertake to write about homelessness, but wrote what I knew, as an artist paints a still life, not because he is especially fond of fruit, but because the subject is readily at hand." Containing the widely anthologized essay "On Dumpster Diving," *Travels with Lizbeth* is a beautifully written account of one man's experience of homelessness, a story of physical survival, and the triumph of the artistic spirit in the face of enormous adversity. In his unique voice—dry, disciplined, poignant, comic—Eighner celebrates the companionship of his dog, Lizbeth, and recounts their ongoing struggle to survive on the streets of Austin, Texas, and hitchhiking along the highways to Southern California and back.
