**Principle of Comparative Politics (International Edition)** ...

This textbook is very effective in its methods of communicating the basic principles of comparative politics. While dense in information, at no point did I feel lost in my understanding of the concepts being covered. The ordering of the chapters allowed the information to naturally flow from the theoretical to the practical, and most provided ...

Principles of Comparative Politics offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, al nd the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics.

William Roberts Clark, Matt Golder, and Sona Nadenichek Golderis groundbreaking Principles of Comparative Politics offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, readers have an even better guide to cross-national comparison and why it matters. Readers are offered a new intuitive take on statistical analyses and a clearer explanation of how to interpret regression results; a thoroughly-revised chapter on culture and democracy that now includes a more extensive discussion of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; and a revised chapter on dictatorships that incorporates a principal-agent framework for understanding authoritarian institutions. Examples from the gender and politics literature have been incorporated into various chapters and empirical examples and data on various types of institutions have been updated. The book's outstanding pedagogy includes more than 250 tables and figures, numerous photos and maps, end of chapter exercises and problem sets, and a broader set of works cited. New to this Edition A new intuitive take on statistical analyses and a clearer explanation of how to interpret regression results are included. A thoroughly-revised chapter on culture and democracy includes a more extensive discussion of cultural modernization theory and a new overview of survey methods for addressing sensitive topics. A revised chapter on dictatorships incorporates a principal-agent framework for understanding authoritarian institutions. Examples from the gender and politics literature have been incorporated into various chapters. Empirical examples and data on various types of institutions have been updated. Online videos and tutorials guide students through some of the methodological components addressed in the book.

By revealing the contextual conditions which promote or hinder democratic development, Comparative Politics shows how democracy may not be the best institutional arrangement given a country's unique set of historical, economic, social, cultural and international circumstances. Addresses the contextual conditions which promote or hinder democratic development Reveals that democracy may not be the best institutional arrangement given a country's unique set of historical, economic, social, cultural and international circumstances Applies theories and principles relating to the promotion of the development of democracy to the contemporary case studies

The new edition of this leading overview of comparative politics once again blends theory and evidence across democratic systems to provide unparalleled coverage. The student-friendly structure and clear, concise writing ensure that complex issues are clearly explained and students engage with the key theories. The third edition is updated throughout, with a new chapter, 'Public Spending and Public Policies', increased coverage of defective democracies, and revised coverage of e-democracy and the power of the media. The pedagogy is simplified with a focus on 'Briefings' and 'Controversies' that feature examples from across the globe, alongside clear key terms, 'What We Have Learned' and 'Lessons of Comparison' sections, and a wealth of online materials to complete a rich teaching and learning package.

Debuting in its first edition and driven by a question-based approach, Comparative Politics shows readers how to do real comparative analysis while introducing them to political institutions, identities, and interests. This thematic survey uniquely balances the how/analytical knowledge/and the what/descriptive knowledge/to help readers make their own political arguments and to thus be more critically informed and engaged political participants.

Now in a revised edition, Comparative Pharmacokinetics: Principles, Techniques, and Applications presents the principles and techniques of comparative and veterinary pharmacokinetics in a detailed yet practical manner. Developed as a tool for ensuring that pharmacokinetics studies are properly designed and correctly interpreted, the book provides complete coverage of the conceptual basis of pharmacokinetics as used for quantifying biological processes from the perspectives of physiology and medicine. New chapters have been added on quantitative structure permeability relationships and bioequivalence, and a number of existing chapters have been significantly revised and expanded to provide a current resource for veterinary and comparative pharmacokinetics.

Introducing Comparative Politics: The Essentials is organized thematically around the essential questions in comparative politics:Who rules? What explains political behavior? Where and why? Adapted from the authors' Introducing Comparative Politics, Fourth Edition, The Essentials version offers the same framework for understanding comparative politics in a briefer format. Instructors have greater flexibility in teaching the course because this version of Stephen Orvis and Carol Ann Drogus' best-seller does not include extended case studies. Loaded with contemporary examples and up-to-date research, this streamlined text helps students engage with the critical issues shaping global politics today. KEY FEATURES: Chapter-opening key questions help you focus on the key issues as you are reading. The chapters sometimes provide conclusive answers to the key questions, but more often they show you different ways the questions can be answered or approached. Multiple (In Context) features in every chapter illustrate basic data about the chapter topics so you can set that idea into a comparative (and sometimes provocative) context. Critical Inquiry features highlight methodological issues in comparative politics, providing a gateway for empirical study and analysis. More than a hundred full color tables, figures, and maps help you visualize comparative data and better understand concepts. End-of-chapter lists of key concepts with page references are included to help you easily study and review the concepts, and a list of works cited and list of important print and electronic references offer you resources for further research.

Debuting in its first edition and written by a new generation of area studies experts, Case Studies in Comparative Politics follows a questions-based approach that helps readers understand different countries' political histories, institutions, identities, and interests and why each country is politically interesting and relevant. When used on its own or with the accompanying thematic survey, Case Studies in Comparative Politics asks/and answers/the same important questions that political scientists research and that are relevant to anyone interested in politics.

Extensively revised and updated, this classic text revisits the central problem of searching for mainstream and alternative paradigms to guide us in comparative political inquiry. Building upon the first edition's comprehensive and systematic overview of frameworks, ideologies, and theories, the second edition highlights new directions and developments over the past decade, including the continuation of an ideological political science methodological innovations such as rational-choice, historical, and postbehavioural approaches new emphases on and links between political culture and participation the recasting of modernization theory and the revitalization of class analysis and a thoroughgoing post-Keynesian political economy point of view.The second edition continues the tradition of the first in updating what one reviewer commended as outstanding, excellent annotated bibliographies at the end of each chapter and the thorough survey of the general literature of comparative politics at the end of the book." In addition, the new edition includes an appendix of definitions that facilitate clarity and understanding of political science terminology, important for students at every level from the introductory on up.In a post-Cold War world in which challenges to comparative inquiry abound,ethnic conflict, authoritarian repression, state building and disintegration, new industrialization and postindustrialization, security systems redefined,the search for new paradigms that Theories of Comparative Politics represents gains in importance daily.
