(PDF) Appraisal of African Epistemology in the Global System

Rationality is the quality or state of being rational – that is, being based on or agreeable to reason. Rationality implies the conformity of one's beliefs with one's reasons to believe, and of one's actions with one's reasons for action. "Rationality" has different specialized meanings in philosophy, economics, sociology, psychology, evolutionary biology, game theory and political science

Rationality - Wikipedia

Senghor and his supporters, such as Sylvia Ba 1973: 74(Ba,78-), are noted here to play down the element of rationality in African thought, although emotion which they identify the African person with does not fundamentally identify the human being as well as rationality and morality do.
