No single group of men at West Point--or possibly any academy--has been so indelibly written into history as the class of 1846. The names are legendary: Thomas "Stonewall" Jackson, George B. McClellan, Ambrose Powell Hill, Darius Nash Couch, George Edward Pickett, Cadmus Marcellus Wilcox, and George Stoneman. The class fought in three wars, produced twenty generals, and left the nation a lasting legacy of bravery, brilliance, and bloodshed. This fascinating, remarkably intimate chronicle traces the lives of these unforgettable men--their

Merkin, “when the truth is that despair has a light all its own, a lunar glow, the color of mottled silver.”

This Close to Happy—Merkin’s rare, vividly personal account of what it feels like to suffer from clinical depression—captures this strange light. Daphne Merkin has been hospitalized three times: first, in grade school, for childhood depression; years later, after her daughter was born, for severe postpartum depression; and later still, after her mother died, for obsessive suicidal thinking. Recounting this series of hospitalizations, as well as her visits to myriad

therapists and psychopharmacologists, Merkin fearlessly offers what the child psychiatrist Harold Koplewicz calls “the inside view of navigating a chronic psychiatric illness to a realistic outcome.” The arc of Merkin’s affliction is lifelong, beginning in a childhood largely bereft of love and stretching into the present, where Merkin lives a high-functioning life and her depression is manageable, if not “cured.” “The opposite of depression,” she writes with characteristic insight, “is not a state of unimaginable happiness . . . but a state of relative all-right-ness.”

In this dark yet vital memoir, Merkin describes not only the harrowing sorrow that she has known all her life, but also her early, redemptive love of reading and gradual emergence as a writer. Written with an acute understanding of the ways in which her condition has evolved as well as affected those around her, *This Close to Happy* is an utterly candid coming-to-terms with an illness that many share but few talk about, one that remains shrouded in stigma. In the words of the distinguished psychologist Carol Gilligan, "It brings a stunningly perceptive voice into the
